

## INDEX OF SUBJECTS

### Original Articles

#### A

- AA protein, amyloid, cellular distribution and appearance, 540
- Absorption-elution test, topographic determination of transfused cells in incompatible transfusion from paraffin-sectioned tissue slices (letter), 111
- Acid phosphatase, see under Phosphatase(s)
- Activated partial thromboplastin time, see under Thromboplastin time, partial
- Acute leukemia, see under Leukemia(s)
- Acute myelomonocytic leukemia, see under Leukemia(s), myelomonocytic
- Acute renal allograft rejection, see under Allograft(s), renal, rejection
- Adenocarcinoma(s), mucin-producing, blood counts, automated, spuriously low in (letter), 115
- Adenoma(s)
- parathyroid hamartoma, 31
  - pleomorphic, intranasal mixed tumors (abstract), 209
- Adenosinemonophosphate, cyclic, dibutyryl, platelet aggregation and shape change responses to, 362
- Adenosinetriphosphatase
- ecto-, platelet aggregation and ouabain-insensitive ATPase, 528
  - ouabain-insensitive, platelet aggregation and, 528
- Adrenal(s)
- carcinoma of with severe hypertension, steroid profile in a case, 591
  - medullary hyperplasia, in multiple endocrine neoplasia, type 2 (letters), 610; 611
  - ovarian thecal metaplasia in, 318
- Age factors
- elderly, granulocyte adherence in, 49
  - granulocyte adherence in the elderly, 49
- Agglutination reaction, mixed, topographic determination of transfused cells in incompatible transfusion from paraffin-sectioned tissue slices (letter), 111
- Aggregation, platelet, see under Platelet(s)
- Agnogenic myeloid metaplasia, see under Metaplasia(s), myeloid
- Air embolism, autopsy protocol for skin- and scuba-diving deaths, 440
- Albumin, calcium, ionized, relationship to (letters), 311; 312
- Allograft(s), see also Transplant(s)
- renal
    - fibrinogen-related antigens, urinary, quantitative counterimmunoelectrophoresis for, 174
    - rejection, acute, renal tubular epithelium differentiation in, 580
    - rejection, acute, urinary cytodagnosis of using Cyto centrifuge, 134
- Alpha<sub>1</sub>-acid glycoprotein (orosomucoid) contents of pleural and peritoneal effusions of various etiologies, 146
- Alpha<sub>1</sub>-antitrypsin, see under Antitrypsin
- American Society of Clinical Pathologists
- history (Ward Burdick Award Lecture), 407
  - statement on adoption of International System of Units (SI), 108
- Amnion nodosum, ichthyosis, congenital, and, 567
- AMP, see Adenosinemonophosphate
- Ampicillin
- Haemophilus influenzae* resistance, rapid susceptibility testing, 100
  - Haemophilus influenzae* resistant to, standardized disk-diffusion susceptibility test, 264
- Amyloid, green birefringence (letter), 506
- Amyloidosis
- Factor X deficiency, acquired, and, 170
  - secondary, AA protein, amyloid, cellular distribution and appearance, 540
  - systemic, with deficiency of Factors IX and X, coagulopathy associated with (abstract), 205
- Analytic variability, see under Variability
- Analyzer(s), centrifugal fast, lactate extraction ratio measurement to assess myocardial ischemia, 80
- Anemia(s)
- Cooley's, hemoglobin A<sub>2</sub>, quality control hemolysate for microchromatographic determinations, 215
  - hemoglobin A<sub>2</sub> levels in, 219
  - hemolytic, anti-"i" antibody and, associated with spontaneous cytomegalovirus mononucleosis, 459
  - pernicious
    - homocysteine in, cytochemical detection, 53
    - periodic acid-Schiff-positive megaloblasts in, 371
- Angiitis, pulmonary, granulomatous, in sarcoidosis (abstract), 213
- Angioimmunoblastic lymphadenopathy, see under Lymphadenopathy
- Angiomatous lesions, hepatic, in hairy-cell leukemia, 415
- Anomaly(ies)
- Chediak-Higashi, pseudo-, in chronic myelogenous leukemia with myelofibrosis (letter), 608
  - congenital, first-brachial-cleft cysts and sinuses (abstract), 208
- Antibiogram(s) in differentiating *Citrobacter* species, 187
- Antibiotics
- cephalothin, *Staphylococcus aureus* resistance to, microdilution technic for detection, 489
  - methicillin, *Staphylococcus aureus* resistance to, microdilution technic for detection, 489
  - nafcillin, *Staphylococcus aureus* resistance to, microdilution technic for detection, 489
  - oxacillin, *Staphylococcus aureus* resistance to, microdilution technic for detection, 489
  - susceptibility testing
    - ampicillin-*Haemophilus influenzae*, 100
    - Citrobacter* species differentiation, antibiograms as aid in, 187
    - disk-diffusion, standardized, for *Haemophilus influenzae*, 264
- Antibody(ies)
- anti-"i", hemolytic anemia and, associated with spontaneous cytomegalovirus mononucleosis, 459
  - deoxyribonucleic acid, native, technics for detection compared, 374
  - hepatitis B surface antigen, in laboratory diagnostic sera, 104

- Anticoagulation, Normotest-Thrombotest discrepancy in congenital coagulation disorders of prothrombin complex and in coumarin-treated patients, 57
- Antigen(s)  
   carcinoembryonic  
     nomogram to predict recurrence of colonic cancer (abstract), 206  
     substances resembling in urine, determination of baseline values, 455  
     substances resembling in urines of "normal" individuals (abstract), 206  
   Factor VIII-related, determination using commercial antisera, 462  
   fibrinogen-related, urinary, quantitative counterimmunoelectrophoresis for, 174  
   hepatitis B surface  
     antibody to in laboratory diagnostic sera, 104  
     in commercial control materials (letter), 197  
     orcein staining of liver to detect, 20  
     screening hospital patients for, 257  
   *"i"*, antibody against, hemolytic anemia and, associated with spontaneous cytomegalovirus mononucleosis, 459  
 Anti-HB<sub>s</sub>, see Antibody(ies), hepatitis B surface antigen  
 Antihuman melanoma antiserum, see under Antiserum(a), melanoma  
 Antimicrobial susceptibility patterns (antibiograms) in differentiating *Citrobacter* species, 187  
 Antiserum(a)  
   commercial, factor VIII-related antigen determination using, 462  
   melanoma, antihuman, chimpanzee, in immunodiagnosis of melanoma, 573  
 Antithrombin III activity in thromboembolic episodes, platelet factor 4 activity compared with, 351  
 Antitrypsin, alpha-1, pediatric reference values (abstract), 203  
 API 20C, evaluation, 269  
 APTT, see Thromboplastin time, partial, activated  
 Arteritis  
   disseminated visceral giant-cell (abstract), 213  
   giant-cell, disseminated visceral (abstract), 213  
 Aspirate(s)  
   see also Biopsy(ies)  
   bone marrow, lymphoid follicles in, 41  
 Aspiration biopsy, see under Biopsy(ies)  
 Aspiration pneumonia, see under Pneumonia  
 Assay(s)  
   estrogen receptor, in human mammary cancer, technics for handling small samples, 444  
   myoglobin, serum, radioimmunoassay (abstract), 211  
   nephelometric immunoassay for determination of clinically significant proteins in human serum (abstract), 209  
   proteins, electrophoresis system, high-resolution, evaluated, 247  
 Assimilation, yeast identification with API 20C, 269  
 ATPase, see Adenosinetriphosphatase  
 Atypical stromal hyperplasia, see under Hyperplasia, stromal  
 Audit, laboratory-initiated (abstract), 208  
 Automated blood counts, see under Blood counts  
 Automated instrument, see under Instrument(s)  
 Automated transport, see under Transport  
 Automation  
   economic impact of computer-based centralized organization in clinical laboratory, 149  
   hematology, computerized, high-volume laboratory, 64  
   leukocyte analyzer, validity of results, 159  
 Autopsy(ies)  
   see also Necropsy(ies)  
   diving deaths, skin- and scuba-, protocol for, 440

## B

- B lymphocyte, see under Lymphocyte(s)  
 Bacteriology  
   see also Microbiology, individual genera  
   postmortem, pneumonia and in mentally retarded population, 190  
 Bacterium(a)  
   colonization, carcinoembryonic antigen-like substances in urine altered by, 455  
   enteric, gram-negative, antibiotic and biochemical profiling using the MIC-2000 system (abstract), 207  
   gram-negative  
     enteric, antibiotic and biochemical profiling using the MIC-2000 system (abstract), 207  
     postmortem bacteriology and pneumonia in mentally retarded population, 190  
   Resazurin reduction in measurement of viability (abstract), 207  
   *Staphylococcus aureus*, methicillin-resistant strains, microdilution technic for detection, 489  
 Barotrauma, autopsy protocol for skin- and scuba-diving deaths, 440  
 Baseline value(s), carcinoembryonic antigen-like substances in urine, determination, 455  
 Beckwith syndrome, bilateral nephromegaly and multiple pulmonary cysts, 284  
 Bee-sting hypersensitivity, *in-vitro* diagnosis (abstract), 208  
 Benzidine, mutagenicity of benzidine and related compounds used in detection of hemoglobin, 526  
 Biopsy(ies)  
   see also Aspirate(s)  
   aspiration, needle, prostatic carcinoma, 131  
   breast cancer, screening for hormone dependency *in vitro*, 393  
   lung, in *Pneumocystis carinii* pneumonia, typical and atypical features, 11  
   rectal mucosa, grossly normal, in Crohn's disease, microgranulomas in, 550  
   renal, immunofluorescence, IgA-IgG nephropathy, 289  
   transperineal, prostatic carcinoma, needle aspiration, 131  
   transrectal, prostatic carcinoma, needle aspiration, 131  
   trephine, bone marrow, and particle section technics, relative merits (letters), 308; 309; 310  
 Birefringence, green, of amyloid (letter), 506  
 Bleeding disorders, congenital, Normotest-Thrombotest discrepancy in, 57  
 Blood  
   see also under Coagulation; Hemodialysis; Hemolysis; Transfusion(s); specific constituents and determinations  
   coagulation curve, impedance, analysis and interpretation, 470  
   counts  
     see also under individual cells  
     automated, spuriously low in mucin-producing adenocarcinoma (letter), 115  
     differential, automatic leukocyte analyzer, validity of results, 159  
   cultures, see under Culture(s)  
   Enterobacteriaceae interactions with, 260  
   groups, cancer, breast, response to therapy association with (letter), 504  
   peripheral, leukocyte analyzer, automatic, validity of results, 159  
   sedimentation, impedance blood coagulation curve, analysis and interpretation, 470  
   specimens, see under Specimen(s)  
   transfusions, see Transfusion(s)  
 Bone(s)  
   marrow  
     aspirates, lymphoid follicles in, 41

- biopsy and particle section technics (letters), 308; 309; 310  
 esterase activity in erythroleukemia, 368  
 osteosarcoma, primary, clinicopathologic and necropsy studies, 427
- Breast(s)  
 cancer  
 blood groups and response to therapy (letter), 504  
 estrogen receptor assay, technics for handling small tissue samples, 444  
 hormone dependency, screening for, *in vitro*, 393  
 mastectomy specimens, routine serial subgross examination in hospital laboratory (abstract), 214
- C**
- C3, see under Complement  
 C3 proactivator, see under Complement  
 C4, see under Complement  
 C5, see under Complement
- Calcium  
 ionized, relationship to albumin and total protein (letters), 311; 312  
 serum ionic, measurement (letter), 505
- cAMP, see Adenosinemonophosphate, cyclic
- Cancer(s)  
 see also Carcinoma(s); Malignancy(ies); Neoplasm(s); Tumor(s); specific types  
 breast  
 blood groups and response to therapy (letter), 504  
 hormone dependency, screening for, *in vitro*, 393  
 primary, estrogen receptor assay, technics for handling small tissue samples, 444  
 coagulopathy in (abstract), 206  
 colonic, CEA nomogram used to predict recurrence (abstract), 206  
 mammary, mastectomy specimens, routine serial subgross examination in hospital laboratory (abstract), 214
- Candida albicans*, blood cultures, importance of aerobic and anaerobic atmospheres of incubation (letters), 199; 199
- Carbonate, hypersecretion in urine, self-induced (letter), 201
- Carcinoembryonic antigen, see under Antigen(s)
- Carcinoembryonic antigen-like substances, urinary, determination of baseline values, 455
- Carcinogen(s), benzidine and related compounds used in detection of hemoglobin, 526
- Carcinoma(s)  
 see also Cancer(s); Neoplasm(s); Tumor(s); specific types  
 adrenal, hypertension with, steroid profile in a case, 591  
 basal-cell, premalignant fibroepitheliomas (abstract), 214  
 endometrial, clinical-pathologic study of 100 cases (abstract), 208  
 palate, necrotizing sialometaplasia confused with, 315  
 pancreatic nerves, benign epithelial inclusions in (letter), 306  
 prostatic, biopsy, needle aspiration, 131
- Carrier(s), hemophilia, factor VIII-related antigen determination using commercial antisera, 462
- CEA, see Antigen(s), carcinoembryonic
- Cell(s)  
 see also Cytology; specific cells  
 culture, see under Culture(s)  
 epithelioid germinal centers, 545  
 immunity, see under Immunity  
 Langerhans, histiocytosis X of skin of elderly man, 36  
 lupus erythematosus, rapid screening for using cytocentrifuge-prepared buffy coat monolayers, 537  
 McCoy's, Chlamydia, comparative recoveries from urethral specimens using glass vials and plastic microtiter plates, 496  
 plasma, amyloid AA protein, cellular distribution and appearance, 540  
 renal tubular  
 epithelial, differentiation in renal transplantation cytology, 580  
 renal allograft rejection, acute, urinary cytodiagnosis of using Cytocentrifuge, 134
- Cell Processor, preparation of platelets and granulocytes from single donors using (abstract), 204
- Central nervous system, Whipple's disease, bacillary bodies in (letters), 200; 201
- Centrifugal fast analyzer, lactate extraction ratio measurement to assess myocardial ischemia, 80
- Cephalothin, *Staphylococcus aureus* resistance to, microdilution technic for detection, 489
- Cerebrospinal fluid  
*Cryptococcus neoformans* identification in cytologic preparations, 141  
 oligoclonal immunoglobulin G identification by immunofixation (abstract), 210
- Chart(s), quality control, in clinical laboratory (letter), 201
- Chediak-Higashi anomaly, pseudo-, in chronic myelogenous leukemia with myelofibrosis (letter), 608
- Chemistry  
 see also specific components and tests  
 clinical, laboratory evaluation, 20 hospitals, 594  
 pooled normal values, 386
- Chlamydia, urethral specimens, comparative recoveries using glass vials and plastic microtiter plates, 496
- Chondrosarcoma(s), extraskeletal (abstract), 213
- Choriocarcinoma(s), in mother and child, immunoenzyme histochemistry identification, 279
- Chorionic gonadotropin, see under Gonadotropin(s)
- Chromagen(s), hemoglobin, benzidine and related compounds, mutagenicity, 526
- Chromatin, sex, in medicolegal investigations (abstract), 211
- Chromatography, liquid, platelet aggregation and ouabain-insensitive ATPase, 528
- Chronic erythremic myelosis, see under Myelosis, erythremic
- Chronic lymphocytic leukemia, see under Leukemia(s), lymphocytic
- Chronic myelogenous leukemia, see under Leukemia(s), myelogenous
- Chronic myelomonocytic leukemia, see under Leukemia(s), myelomonocytic
- Cirrhosis, infantile, correlation of anatomic and molecular pathologic findings (abstract), 209
- Citrobacter diversus*, antimicrobial susceptibility patterns (antibiograms) as aid in identifying, 187
- Citrobacter freundii*, antimicrobial susceptibility patterns (antibiograms) as aid in identifying, 187
- Citrobacter* species, antimicrobial susceptibility patterns (antibiograms) as aid in differentiating, 187
- Classification, histologic, World Health Organization, of salivary gland tumors, evaluation, 272
- Clinical chemistry, see under Chemistry
- Clot retraction time, impedance blood coagulation curve, analysis and interpretation, 470
- Clotting  
 see also Coagulation  
 defect, Normotest-Thrombotest discrepancy in congenital coagulation disorders of prothrombin complex and in coumarin-treated patients, 57  
 time(s), whole blood, impedance blood coagulation curve, analysis and interpretation, 470

CMV, see Cytomegalovirus(es)

# Coagulation

see also Clotting

amyloidosis, systemic, with deficiency of Factors IX and X, coagulopathy associated with (abstract), 205

anticoagulation, Normotest-Thrombotest discrepancy in congenital coagulation disorders of prothrombin complex and in coumarin-treated patients, 57

factor defects, Factor X deficiency, acquired, and amyloidosis, 170

fibrinogen Seattle in patient with tetralogy of Fallot, 236

impedance curve, analysis and interpretation, 470

intravascular, platelet factor 4 activity and thromboembolic episodes, 351

malignant disease, coagulopathy in (abstract), 206

thrombokinetis, clinical significance and standardization (abstract), 205

Coagulopathy, see under Coagulation

Colonization, bacterial, see under Bacterium(a)

Commercial antisera, see under Antiserum(a)

# Complement

## C3

pediatric reference values (abstract), 203

proactivator, radial immunodiffusion measurement in systemic lupus erythematosus, 97

C<sub>3</sub> vascular deposits in thrombotic thrombocytopenic purpura, 61

C4 complement component, radial immunodiffusion measurement in systemic lupus erythematosus, 97

C5 complement component, radial immunodiffusion measurement in systemic lupus erythematosus, 97

hemolytic, systemic lupus erythematosus, measurement of complement components by radial immunodiffusion, 97

# Computer(s)

economic impact of computer-based centralized organization in clinical laboratory, 149

pheresis, program for, 241

Computerization, hematology, high-volume laboratory, 64

Concentration, fixative for intestinal parasites in feces permitting use of, 300

Congenital anomalies, first-brachial-cleft cysts and sinuses (abstract), 208

Congenital bleeding disorders, see under Bleeding disorders

Congenital ichthyosis, see under Ichthyosis

Constant systematic error, see under Error(s), systematic

# Contraceptive(s)

estrogen-progesterone, oral, platelet morphology changes resulting from (abstract), 205

oral, hepatic tumors and (abstract), 209

# Control(s)

hemolysate for microchromatographic determinations of hemoglobin A<sub>2</sub>, 215

hepatitis B surface antigen in commercial control materials (letter), 197

Cooley's anemia, see under Anemia(s)

Copper, tuberculosis, pulmonary, effect on concentration, 251

Coronary occlusion, see under Heart

Coronary thrombosis, see under Heart

Coumarin drugs, Normotest-Thrombotest discrepancy after treatment with, 57

Count, blood, see under Blood

Counter(s), platelet, electronic (letters), 313; 313

Counterimmunoelectrophoresis, quantitative, fibrinogen-related antigens, urinary, 174

CPK, see Creatine kinase

Creatine kinase

isoenzyme distributions, three methods compared, with clinico-pathologic correlation (abstract), 211

MB isoenzyme in quantitation of myocardial infarct size (abstract), 211

Crohn's disease, microgranulomas in rectal mucosal biopsies grossly normal, 550

*Cryptococcus neoformans*, identification in cytologic preparations of cerebrospinal fluid, 141

# Culture(s)

blood, aerobic and anaerobic atmospheres of incubation, importance (letters), 199; 199

## cell

Chlamydia, comparative recoveries from urethral specimens using glass vials and plastic microtiter plates, 496

viral sensitivities to, 397

Current-induced thrombosis, see under Thrombosis

Cyclic adenosinemonophosphate, see under Adenosinemonophosphate

# Cyst(s)

first brachial cleft (abstract), 208

pulmonary, multiple, bilateral nephromegaly and, 284

Cystosarcoma phyllodes, prostatic stromal hyperplasia, atypical, 324

# Cytocentrifuge

buffy coat monolayers prepared by in rapid screening for lupus erythematosus cells, 537

urinary cytodiagnosis of acute renal allograft rejection, 134

Cytodiagnosis, renal allograft rejection, acute, by cytocentrifugation of urine, 134

# Cytology

see also Cell(s)

*Cryptococcus neoformans* identification in cerebrospinal fluid, 141

## leukemia

acute myelomonocytic, esterase reactions, 485

peroxidase and lysozyme activities in, simultaneous demonstration, 481

sputum, atypical and false-positive, factors associated with (abstract), 212

urinary, renal tubular epithelium differentiation in renal transplantation cytology, 580

# Cytomegalovirus(es)

infections, mononucleosis and, serologic confirmation (abstract), 210

mononucleosis, spontaneous, anti-"i" antibody and hemolytic anemia associated with, 459

Cytoplasmic inclusion(s), pseudo-Chediak-Higashi anomaly in chronic myelogenous leukemia with myelofibrosis (letter), 608

# D

## Data

see also under Records; Statistics

## processing

hematology, computerized, 64

pheresis procedures, 241

DBcAMP, see Adenosinemonophosphate, cyclic, dibutyl

Decompression sickness, autopsy protocol for skin- and scuba-diving deaths, 440

Delphi technic, in forecasting in pathology (letter), 405

Deoxycorticosterone, steroid profile in case of adrenal carcinoma with severe hypertension, 591

Deoxyribonucleic acid, antibodies to native, detection technics compared, 374

Diagnosis(es), see also Immunodiagnosis(es)

Diagnostic sera, see under Serum(a)

- Dibutyl cyclic adenosine monophosphate, see under Adenosine monophosphate, cyclic
- Differential blood counts, see under Blood counts
- Disease(s)
- iatrogenic, myospherulosis possible, 118
  - infectious, epithelioid germinal centers, 545
- Disk-diffusion susceptibility tests, *Staphylococcus aureus*, methicillin-resistant strains, detection, 489
- Disseminated visceral giant-cell arteritis, see under Arteritis
- Diving
- scuba, autopsy protocol for deaths during, 440
  - skin, autopsy protocol for deaths during, 440
- DNA, see Deoxyribonucleic acid
- Drowning, autopsy protocol for skin- and scuba-diving deaths, 440
- Drug(s)
- see also Antibiotic(s)
  - coumarin, Normotest—Thrombotest discrepancy after treatment with, 57
  - hypersensitivity vasculitis associated with (abstract), 213
  - myocardial changes associated with therapeutic (abstract), 212
- Duchenne's muscular dystrophy, see under Dystrophy, muscular
- Dysfibrinogen(s), fibrinogen Seattle in patient with tetralogy of Fallot, 236
- Dysproteinemia, ultrastructure of lymphoid interstitial pneumonia, 328
- Dystrophy
- muscular, Duchenne's, cardiomyopathy (abstract), 212
  - polycystic, esophageal (letters), 307; 308

## E

- Ear(s), myospherulosis, 118
- Economics of computerization, centralized organization in clinical laboratory, 149
- Ecto-ATPase activity, platelet aggregation and ouabain-insensitive ATPase, 528
- Effusion(s)
- pleural, malignant, ultrastructural diagnosis (abstract), 214
  - proteins, orosomucoid contents of pleural and peritoneal effusions of various etiologies, 146
- Elderly, see under Age factors
- Electron microscopy, see under Microscopy
- Electronic platelet counts, see under Platelet(s), counts
- Electrophoresis, high-resolution system evaluated, 247
- Embolism, air, autopsy protocol for skin- and scuba-diving deaths, 440
- Endocrine neoplasia, multiple, type 2, adrenal medullary disease in (letters), 610; 611
- Endometrium, carcinomas, clinical-pathologic study of 100 cases (abstract), 208
- Enteric bacteria, see under Bacterium(a)
- Enterobacteriaceae
- blood interaction with, 260
  - Klebsiella ozaenae* and *Klebsiella rhinoscleromatis* isolation in general hospital, 499
- Enterobius vermicularis*, salpingitis, unilateral, due to, 296
- Enzyme(s)
- esterase reactions in acute monomyelocytic leukemia, 485
  - lysozyme, peroxidase and, simultaneous determination of activities in leukemic cells, 481
  - methyltransferase, methylcobalamin-dependent, homocysteine detected cytochemically in pernicious anemia and in chronic erythremic myelosis, 53
  - peroxidase, lysozyme and, simultaneous determination of activities in leukemic cells, 481

- platelet-derived acid phosphatase isoenzyme in serum in thrombocythemia, 177
- Epithelial inclusions, see under Inclusion(s)
- Epithelioid germinal centers, acquired deficit?, 545
- Epsilon-aminocaproic acid, effects on correlation of serial-dilution protamine sulfate test with models of hypercoagulability and thrombosis in dogs, 356
- Equipment, see also Instrument(s)
- Error(s)
- random, two-sample plot and improvement of laboratory performance in clinical chemistry, 91
  - systematic
    - constant, two-sample plot and improvement of laboratory performance in clinical chemistry, 91
    - proportional, two-sample plot and improvement of laboratory performance in clinical chemistry, 91
- Erythremic myelosis, see under Myelosis
- Erythroblast(s), esterase activity in erythroleukemia, 368
- Erythrocyte(s), clumping, blood counts, automated, spuriously low in mucin-producing adenocarcinoma (letter), 115
- Erythroleukemia, esterase activity in, 368
- Esophagitis, cystic (letters), 307; 308
- Esophagus, pseudodiverticulitis, with polycystic "dystrophy" (letters), 307; 308
- Esterase
- activity in erythroleukemia, 368
  - reactions in acute myelomonocytic leukemia, 485
- Estrogen(s)
- contraceptives, see under Contraceptive(s)
  - Leydig-cell tumor of testis and gynecomastia associated with elevated levels, 562
  - prostatic stromal hyperplasia, atypical, 324
  - receptors, see under Receptor(s)
- External quality control, see under Quality control
- Extraskeletal chondrosarcoma, see under Chondrosarcoma(s)

## F

- Factor(s)
- coagulation, defects, acquired Factor X deficiency and amyloidosis, 170
  - Factor B, radial immunodiffusion measurement of complement components in systemic lupus erythematosus, 97
  - Factor VII deficiency and increased contact activation time related to APTT (letters), 607; 607
  - Factor VIII-related antigen, determination using commercial antisera, 462
  - Factor X deficiency, acquired, and amyloidosis, 170
  - platelet, see under Platelet(s)
- Feces
- examination, fixative for intestinal parasites permitting concentration and permanent staining procedures, 300
  - specimens, see under Specimen(s)
- Fermentation, yeast identification with API 20C, 269
- Fibrin, soluble complexes, serial-dilution protamine sulfate test correlated with models of hypercoagulability and thrombosis in dogs, 356
- Fibrinogen(s)
- antigens related to, see under Antigen(s)
  - degradation products, serial-dilution protamine sulfate test correlated with models of hypercoagulability and thrombosis in dogs, 356
  - Seattle, in patient with tetralogy of Fallot, 236
- Fibrinolysis, Enterobacteriaceae, blood interaction with, 260

- Fibroadenoma(s), prostatic stromal hyperplasia, atypical, 324  
 Fibroepithelioma(s), premalignant, histology, ultrastructure, and histochemistry (abstract), 214  
 Fibrosis, retroperitoneal, immune complex glomerulonephritis in, 436  
 First-brachial-cleft cyst, see under Cyst(s)  
 First-brachial-cleft sinus, see under Sinus(es)  
 Fixative(s), for intestinal parasites in fecal specimens, permitting use of concentration and permanent staining procedures, 300  
 Fluid(s)  
   biological, glycosaminoglycan measurement, colorimetric, 583  
   cerebrospinal, see Cerebrospinal fluid  
   pleural, see Pleural fluid(s)  
 Focal glomerular sclerosis, see under Sclerosis, glomerular  
 Follicle(s), lymphoid, in bone marrow aspirates, 41
- G**
- Gamma-glutamyl transferase, see under Glutamyl transferase  
 Gastrointestinal tract, sarcomas of stomach, 2  
 Germinal center(s), epithelioid, acquired deficit?, 545  
 Giant-cell arteritis, see under Arteritis  
 Gland(s)  
   adrenal, ovarian thecal metaplasia in, 318  
   salivary  
     minor, necrosis, confusion with carcinoma of palate, 315  
     neoplasms, World Health Organization classification evaluated, 272  
 Globin synthesis, lead effect on *in vitro*, 77

quantitation, improved procedure, 531

##### shape changes

ecto-ATPase, aggregation and ouabain-insensitive ATPase, 528  
responses to dibutyl cyclic adenosinemonophosphate and prostaglandin  $E_1$ , 362

Plateletpheresis, data processing, computer program, 241

Pleomorphic adenoma, see under Adenoma(s)

#### Pleural fluid(s)

glycosaminoglycans, measurement, colorimetric, 585

ultrastructural diagnosis of malignant (abstract), 214

#### Plot(s)

two-sample, quality control in clinical chemistry, 91

Youden-Tonks, quality control in clinical chemistry, 91

*Pneumocystis carinii* pneumonia, lung biopsy in, typical and atypical features, 11

#### Pneumonia(s)

aspiration, postmortem bacteriology and in mentally retarded population, 190

interstitial, lymphoid, ultrastructure, virus-like particles in bronchiolar epithelium in Sjögren's syndrome, 328

lipoid, postmortem bacteriology and in mentally retarded population, 190

*Pneumocystis carinii*, lung biopsy in, typical and atypical features, 11

Polycystic dystrophy, see under Dystrophy

Pooled normal values, hematology and chemistry, 386

Postmortem bacteriology, pneumonia and in mentally retarded population, 190

Progesterone receptors, see under Receptor(s)

Proportional systematic error, see under Error(s), systematic

Prostaglandin(s),  $E_1$ , platelet aggregation and shape change responses to, 362

#### Prostate

biopsy, needle aspiration, 131

craniad, atypical stromal hyperplasia, 324

Prostatic acid phosphatase, see under Phosphatase(s), acid

Protamine sulfate test, serial-dilution, correlation with models of hypercoagulability and thrombosis in dogs, 356

#### Protein(s)

AA, amyloid, cellular distribution and appearance, 540

assay, electrophoresis system, high-resolution, evaluated, 247

monoclonal, immunoglobulin deletions detected by immunoelectrophoresis (abstract), 210

#### serum

immuno-electrophoresis, routine, post-heparin pattern, 450

nephelometric immunoassay method for determination in human serum (abstract), 209

orosomucoid contents of pleural and peritoneal effusions of various etiologies, 146

total, calcium, ionized, relationship to (letters), 311; 312

Pseudo-Chediak-Higashi anomaly in chronic myelogenous leukemia with myelofibrosis (letter), 608

Pseudodiverticulitis, esophageal, with polycystic "dystrophy" (letters), 307; 308

*Pseudomonas*, blood cultures, importance of aerobic and anaerobic atmospheres of incubation (letters), 199; 199

Pseudosinus(es), splenic, in hairy-cell leukemia, 415

Pulmonary, see Lung(s)

Pulmonary angitis, see under Angitis

Pulmonary tuberculosis, see under Tuberculosis

Purpura, thrombocytopenic, thrombotic, with  $C'_3$  vascular deposits, 61

## Q

#### Quality control

charts in clinical laboratory (letter), 201

external, two-sample plot and improvement of laboratory performance in clinical chemistry, 91

internal, two-sample plot and improvement of laboratory performance in clinical chemistry, 91

random duplicates method for hematology laboratory, 379

Quantitative counterimmuno-electrophoresis, see under Counter-immuno-electrophoresis

## R

Radial immunodiffusion, complement component measurement in systemic lupus erythematosus, 97

Radioallergosorbent test for bee-sting hypersensitivity (abstract), 208

Radioimmunoassay(s), myoglobin, serum (abstract), 211

Random duplicates method of quality control for hematology laboratory, 379

Random error, see under Error(s)

Ranking laboratory performance, clinical chemistry evaluation in 20 hospitals, 594

Rape victims, alleged, prostatic acid phosphatase activity in (abstract), 203

Rapid identification methods, see under Identification

Rapid screening, see under Screening

Reagent(s), activated partial thromboplastin time, commercial, variation in sensitivities to heparin, 477

#### Receptor(s)

##### estrogen

assay in human mammary cancer, technics for handling small tissue samples, 444

assay in mammary cancer, biochemical and histologic study (abstract), 207

assay in mammary carcinoma, state of the art (abstract), 207

blood groups and response to therapy for breast cancer (letter), 504

measurement in mammary and other tumors (abstract), 206

progesterone, measurement in mammary and other tumors (abstract), 206

Rectum, biopsies of mucosa in Crohn's disease, grossly normal, microgranulomas in, 550

Red blood cells, see Erythrocyte(s)

- Reference intervals, iron, serum, relationship of day-to-day variations in concentrations to iron-binding capacity in healthy young women, 84
- Rejection, renal allograft, see under Allograft(s), renal
- Renal, see Kidney(s)
- Renal allograft, see under Allograft(s)
- Resazurin reduction in measurement of bacterial viability (abstract), 207
- Respiratory infection, see under Infection(s)
- Retroperitoneal fibrosis, see under Fibrosis
- Reye's syndrome, epithelioid germinal centers, 545
- Rhinoscleroma, *Klebsiella rhinoscleromatis* isolation in general hospital, 499
- Ristocetin, platelet aggregation induced by, factor VIII-related antigen, determination using commercial antisera, 462

## S

- Salivary gland, see under Gland(s)
- Salpingitis, unilateral, due to *Enterobius vermicularis*, 296
- Sarcoidosis, granulomatous pulmonary angitis in (abstract), 213
- Sarcoma(s)
- see also Chondrosarcoma(s); Leiomyosarcoma(s); Osteosarcoma(s)
  - immunoblastic, 227
  - stomach, 2
- Scanning electron microscopy, see under Microscopy, electron
- Sclerosis
- glomerular, focal, in children (letters), 310; 311
  - multiple, immunoglobulin G oligoclone identification by immunofixation in cerebrospinal fluid (abstract), 210
- Scratchard plot, estrogen receptor assay in human mammary cancer, techniques for handling small tissue samples, 444
- Screening
- hepatitis B surface antigen in hospital patients, 257
  - mammary carcinomas for hormone dependency *in vitro*, 393
  - rapid, for lupus erythematosus cells using cytocentrifuge-prepared buffy coat monolayers, 537
- Scuba diving, see under Diving
- Secondary amyloidosis, see under Amyloidosis
- Section(s), particle, bone marrow biopsy and, relative merits (letters), 308; 309; 310
- Sedimentation, blood, see under Blood
- Serial-dilution protamine sulfate test, see under Test(s), protamine sulfate
- Serous fluid, glycosaminoglycans, measurement, colorimetric, 585
- Serum(a)
- see also specific components and tests
  - calcium, ionic, measurement (letter), 505
  - diagnostic, laboratory, antibody to hepatitis B surface antigen in, 104
  - hypercoagulability induced by, see under Hypercoagulability
  - myoglobin, radioimmunoassay (abstract), 211
  - proteins
    - immunoelectrophoresis, routine, post-heparin pattern in, 450
    - nephelometric immunoassay method for determination in human serum (abstract), 209
    - orosomucoid contents of pleural and peritoneal effusions of various etiologies, 146
    - viscosity, increased, blood counts, automated, spuriously low in mucin-producing adenocarcinoma (letter), 115
- Sex chromatin in medicolegal investigations (abstract), 211
- SI units
- American Society of Clinical Pathologists statement on adoption, 108
  - clinical chemistry, reappraisal (letters), 402; 404
- Sialometaplasia, necrotizing, confusion with carcinoma of palate, 315
- Sickle hemoglobin, see under Hemoglobin(s)
- SIDS, see Sudden infant death syndrome
- Sinus(es)
- first brachial cleft (abstract), 208
  - nasal
    - myospherulosis, 118
    - myospherulosis, human case, electron-microscopic study, 555
    - Sjögren's syndrome and lymphoid interstitial pneumonia, ultrastructure, virus-like particles in bronchiolar epithelium, 328
- Skin, histiocytosis X of in elderly man, 36
- Skin diving, see under Diving
- Special stains, see under Stain(s)
- Specimen(s)
- fecal
    - collection for diagnosis of intestinal parasitic infestation, two methods compared, 603
    - fixative for intestinal parasites permitting concentration and permanent staining procedures, 300
    - mammary cancer, improved estrogen receptor assay, techniques for small samples, 444
    - mastectomy, subgross examination, routine serial, in hospital laboratory (abstract), 214  - tissue
    - liver, orcein staining to detect hepatitis B surface antigen, 20
    - solid, processing effects on markers for T and B cells, 230  - transport
    - automated, by air-transport tube system (abstract), 204
    - blood, slow-speed pneumatic (abstract), 204
    - viral isolation, comparative sensitivities of viruses to cell cultures and transport media, 397
- Spleen, pseudosinususes in hairy-cell leukemia, 415
- Spurious automated blood counts, see under Blood counts, automated
- Sputum cytology, atypical and false-positive, factors associated with (abstract), 212
- Stain(s)
- lysozyme and peroxidase activities, double stain for simultaneous demonstration in leukemic cells, 481
  - orcein, of liver, to detect hepatitis B surface antigen, 20
  - periodic acid-Schiff, megaloblasts positive in pernicious anemia, 371
  - permanent, fixative for intestinal parasites in feces permitting use of, 300
  - peroxidase and lysozyme activities, double stain for simultaneous demonstration in leukemic cells, 481
  - special, *Cryptococcus neoformans* identification in cytologic preparations of cerebrospinal fluid, 141
- Staphylococcus aureus*, methicillin-resistant strains, microdilution technic for detection, 489
- Statistics
- laboratory, distribution of laboratory data (letter), 115
  - ranking laboratory performance, clinical chemistry, in 20 hospitals, 594
  - Scratchard plot, estrogen receptor assay in human mammary cancer, techniques for handling small tissue samples, 444
  - terminology (letters), 505; 506
  - two-sample plot and improvement of laboratory performance in clinical chemistry, 91
- Steroid(s), profile in case of adrenal carcinoma with severe hypertension, 591
- Stomach, sarcomas, 2

- Streptococcus(i), group F, ecology of 350 isolates, 184  
 Stromal hyperplasia, see under Hyperplasia  
 Sudden infant death syndrome, epithelioid germinal centers, 545  
 Surface antigen, hepatitis B, see under Antigen(s), hepatitis B  
 Survey(s), laboratory, clinical chemistry performance in 20 hospitals, 594  
 Susceptibility testing  
   antibiotic, see under Antibiotic(s)  
   *Haemophilus influenzae*, disk-diffusion, standardized, 264  
 Systematic error, see under Error(s)  
 Systemic amyloidosis, see under Amyloidosis  
 Systemic lupus erythematosus, see under Lupus erythematosus

## T

- T lymphocyte, see under Lymphocyte(s)  
 Technologist(s), medical, hospital laboratory management (editorial), 117  
 Test(s)  
   absorption-elution, topographic determination of transfused cells in incompatible transfusion from paraffin-sectioned tissue slices (letter), 111  
   antibiotic susceptibility  
     *Haemophilus influenzae*, disk-diffusion, standardized, 264  
     *Staphylococcus aureus*, methicillin-resistant strains, microdilution technic for detection, 489  
   antibodies to native deoxyribonucleic acid detection, methods compared, 374  
   disk-diffusion susceptibility, *Staphylococcus aureus*, methicillin-resistant strains, detection, 489  
   hematology, computerized, 64  
   laboratory, hematology, computerized, 64  
   microdilution susceptibility, *Staphylococcus aureus*, methicillin-resistant strains, detection, 489  
   Normotest-Thrombotest discrepancy, 57  
   protamine sulfate, serial-dilution, correlation with models of hypercoagulability and thrombosis in dogs, 356  
   radioallergosorbent, for bee-sting hypersensitivity (abstract), 208  
   Thrombotest-Normotest discrepancy, 57  
   thyroid function, *in vitro* (letter), 113  
 Testis(es), Leydig-cell tumor with gynecomastia and elevated estrogen levels, 562  
 Thalassemia  
   hemoglobin A<sub>2</sub>  
     levels, 219  
     quality control hemolysate for microchromatographic determinations, 215  
 Thecal metaplasia, see under Metaplasia  
 Thrombocythemia, acid phosphatase isoenzyme, platelet-derived, in serum, 177  
 Thrombocytopenic purpura, see under Purpura  
 Thromboembolism, platelet factor 4 activity and, 351  
 Thrombokinetix, clinical significance and standardization (abstract), 205  
 Thromboplastin time, partial, activated  
   factor VII deficiency, hereditary, and increased contact activation time (letters), 607; 607  
   reagents, commercial, sensitivities to heparin, variation in, 477  
 Thrombosis  
   coronary, see Heart, coronary thrombosis  
   current-induced, serial-dilution protamine sulfate test correlated with models of thrombosis in dogs, 356  
 Thrombotest-Normotest discrepancy in congenital coagulation disorders of prothrombin complex and in coumarin-treated patients, 57  
 Thrombotic thrombocytopenic purpura, see under Purpura, thrombocytopenic  
 Thymoma(s), granulomatous, myasthenia gravis with, 521  
 Thymus, Hodgkin's disease of, myasthenia gravis with, 521  
 Thyroid function tests, *in vitro* (letter), 113  
 Tissue(s)  
   lymphoid, epithelioid germinal centers, 545  
   specimen, see under Specimen(s)  
 Tolerance limits, quality control charts in clinical laboratory (letter), 201  
 Total protein, see under Protein(s)  
 Transferrin  
   iron, serum, relationship of day-to-day variations in concentrations to iron-binding capacity in healthy young women, 84  
   pediatric reference values (abstract), 203  
 Transfusion(s)  
   see also Blood bank(s)  
   incompatible, topographic determination of transfused cells in from paraffin-sectioned tissue slices (letter), 111  
 Transmission electron microscopy, see under Microscopy, electron  
 Transperineal biopsy, see under Biopsy(ies)  
 Transplant(s)  
   see also Allograft(s)  
   renal  
     acute allograft rejection, urinary cytodiagnosis of using Cytochrome, 134  
     antigens, fibrinogen-related, urinary, quantitative counter-immunoelectrophoresis for, 174  
     fibrinogen-related antigens, urinary, quantitative counter-immunoelectrophoresis for, 174  
     rejection, acute, renal tubular epithelium differentiation in, 580  
 Transport  
   automated, of clinical laboratory specimens by air-transport tube system (abstract), 204  
   gravity, slow-speed pneumatic, of blood specimens (abstract), 204  
 Transrectal biopsy, see under Biopsy(ies)  
 Travenol needle, see under Needle(s)  
 Trepine biopsy, see under Biopsy(ies)  
 TTP, see Purpura, thrombocytopenic, thrombotic  
 Tuberculosis  
   pulmonary  
     copper concentration in, 251  
     zinc concentration in, 251  
 Tumor(s)  
   see also Neoplasia; Neoplasm(s)  
   hepatic, contraceptives and (abstract), 209  
   interstitial-cell, testicular, with gynecomastia and elevated estrogen levels, 562  
   intranasal mixed (abstract), 209  
   Leydig-cell, testicular, with gynecomastia and elevated estrogen levels, 562  
   mammary and other, receptors, estrogen and progesterone, measured in (abstract), 206  
   mixed, intranasal (abstract), 209  
 Two-sample plot, quality control in clinical chemistry, 91

## U

- Ultrastructure  
   see also Microscopy, electron  
   histiocytomas (abstract), 214  
   kidney, biopsy specimens in IgA-IgG nephropathy, 289  
   myospherulosis, human case, 555

- pleural effusions, malignant (abstract), 214
- pneumonia, lymphoid interstitial, and Sjögren's syndrome, 328
- Units, international system of, see SI units
- Urethritis, nongonococcal, Chlamydia, comparative recoveries using glass vials and plastic microtiter plates, 496
- Urine
  - antigens, fibrinogen-related, quantitative counterimmunoelectrophoresis for, 174
  - carcinoembryonic antigen-like substances in specimens from "normal" individuals (abstract), 206
  - cytology, renal tubular epithelium differentiation in renal transplantation cytology, 580
  - glycosaminoglycans, measurement, colorimetric, 585
  - hydroxyproline, measurement, colorimetric, 585
- Urometer, infectious organism reservoir, 106

## V

- Value(s), normal
  - iron, serum, relationship of day-to-day variations in concentrations to iron-binding capacity in healthy young women, 84
  - pooled hematology and chemistry, 386
- Variability, analytic, clinical chemistry performance in 20 hospitals, 594
- Variation, physiologic, iron, serum, relationship of day-to-day variations in concentrations to iron-binding capacity in healthy young women, 84
- Vasculitis, hypersensitivity, drugs associated with (abstract), 213
- Virus(es)
  - cultures, cell, viral sensitivities to, 397
  - cytomegalovirus infections, mononucleosis and, serologic confirmation (abstract), 210
  - hepatitis
    - see also under Hepatitis
    - B, infection, prevention with specific hyperimmune hepatitis B immune globulin (abstract), 204
  - sensitivities
    - to cell cultures, 397
    - to transport media, 397
    - transport media, viral sensitivities to, 397
- Virus-like particle(s), Sjögren's syndrome bronchiolar epithelium, with lymphoid interstitial pneumonia, 328
- Visceral giant-cell arteritis, disseminated, see Arteritis, disseminated visceral giant-cell
- Viscosity, serum, increased, blood counts, automated, spuriously low in mucin-producing adenocarcinoma (letter), 115
- von Willebrand's disease, factor VIII-related antigen determination using commercial antisera, 462

## W

- Warfarin sodium, Factor VII deficiency, hereditary, and increased contact activation time related to APTT (letters), 607; 607
- Whipple's disease, bacillary bodies in (letters), 200; 201
- White blood cells, see Leukocyte(s)
- WHO, see World Health Organization
- World Health Organization, salivary gland tumor classification, systematic evaluation of, 272

## Y

- Yeast(s), identification, API 20C evaluated, 269
- Youden-Tonks plot, quality control in clinical chemistry, 91

## Z

- Zinc, tuberculosis, pulmonary, effect on concentration, 251

- Abstracts of Papers, Scientific Sessions of the Fall Program of the American Society of Clinical Pathologists, October 21-29, 1976, in Los Angeles, California, 203**

Lippincott Co., East Washington Square, Philadelphia 19105. Second class postage paid at Philadelphia and additional mailing offices. Subscription price: U.S. and possessions, \$30 per year; all other countries \$39 per year. Single issue price \$4.00.

# TABLE OF CONTENTS

JANUARY TO JUNE, 1977

Number 1, January 1977

Photograph. George J. Carroll, M.D., President, American Society of Clinical Pathologists, 1976-77 .....	1
Sarcomas of the Stomach. HENRY D. APPELMAN AND ELSON B. HELWIG .....	2
Lung Biopsy in <i>Pneumocystis carinii</i> Pneumonia. A Histopathologic Study of Typical and Atypical Features. W. ROBERT WEBER, FREDERIC B. ASKIN, AND LOUIS P. DEHNER .....	11
Detection of Hepatitis B Surface Antigen by Means of Orcein Staining of Liver. NIKOLA D. KOSTICH AND CONNIE D. INGHAM .....	20
Parathyroid Hamartoma. Report of Two Cases and Review of the Literature. DENNIS P. LEGOLVAN, BRIAN P. MOORE, AND RONALD H. NISHIYAMA .....	31
Histiocytosis X of the Skin in an Elderly Man. BARRY BENISCH, BERNARD PEISON, AND HARRY CARTER .....	36
Lymphoid Follicles in Bone Marrow Aspirates. KOICHI MAEDA, BONG H. HYUN, AND JOHN W. REBUCK .....	41
Granulocyte Adherence in the Elderly. EUGENE M. SILVERMAN AND ALIDA G. SILVERMAN .....	49
Cytochemical Detection of Homocysteine in Pernicious Anemia and in Chronic Erythremic Myelosis. LAWRENCE KASS .....	53
Normotest-Thrombotest Discrepancy in Congenital Coagulation Disorders of the Prothrombin Complex and in Coumarin-treated Patients. A Nonspecific Phenomenon. ANTONIO GIROLAMI, ADRIANO BRUNETTI, AND GIOVANNI M. PATRASSI .....	57
Thrombotic Thrombocytopenic Purpura with C <sub>3</sub> Vascular Deposits. Report of a Case. DENNIS D. WEISENBURGER, MICHAEL L. O'CONNOR, AND M. NOEL HART .....	61
Computerized Hematology. Operation of a High-volume Hematology Laboratory. BENJAMIN DREWINKO, BOBBIE WALLACE, CARMEN FLORES, ROBERT W. CRAWFORD, AND JOSE M. TRUJILLO .....	64
Effect of Lead on Globin Synthesis <i>in Vitro</i> . M. A. M. ALI AND A. QUINLAN .....	77
Measurement of Lactate Extraction Ratio by Centrifugal Analyzer to Assess Myocardial Ischemia. RONALD M. TOWNSEND, GEORGE GOTELLI, DONYS WEINGARTNER, AND LAURENCE J. MARTON .....	80
Relationship of Day-to-day Variation of Serum Iron Concentrations to Iron-binding Capacity in Healthy Young Women. BERNARD E. STATLAND AND PER WINKEL .....	84
Quality Control in Clinical Chemistry. The Two-sample Plot and Improvement of Laboratory Performance. WIVEKA E. ELION-GERRITZEN .....	91
Measurement of Complement Components in Systemic Lupus Erythematosus by Radial Immunodiffusion. ROBERT FINBERG, PETER BARLAND, AND ARTHUR I. GRAYZEL .....	97
Rapid Ampicillin Susceptibility Testing for <i>Haemophilus influenzae</i> . ROGER M. BARKIN, JAMES K. TODD, AND MARTHA H. ROE .....	100
Antibody to Hepatitis B Surface Antigen in Laboratory Diagnostic Sera. PAMELA B. HARRISON AND GRAHAME HARDY .....	104
The Urometer as a Reservoir of Infectious Organisms. FRANK E. KOCKA, ELINOR ROEMISCH, WILLIAM A. CAUSEY, AND ALICE O'DELL .....	106
Statement of The American Society of Clinical Pathologists on Adoption of the International System of Units (SI) .....	108
News and Notices .....	109
Letters to the Editor:	
Pathology Manpower. ROLLA B. HILL, JR., AND ROBERT E. ANDERSON .....	110
Dr. Bostick's Comments. WARREN L. BOSTICK .....	111
Topographic Determination of Transfused Cells in Incompatible Transfusion from Paraffin-sectioned Tissue Slices. I. ISHIYAMA, T. NAGAI, S. CHANG, AND Y. TOKORO .....	111
<i>In Vitro</i> Thyroid Function Tests. FELIZA ACHACOSO-ALCID AND GEORGE A. HERMANN .....	113
Is Myocardial Infarction the Result of Coronary Thrombosis? PAUL DER. KOLISCH .....	114

Dr. Currimbhoy's Reply. ZINET CURRIMBHOY .....	114
Distribution of Laboratory Data. JOANNE CORNBLEET .....	115
Spuriously Low Automated Blood Counts in Mucin-producing Adenocarcinoma. CAROLINE C. WADDELL, DONALD M. SHAPIRO, AND K. W. MIN .....	115

## Number 2, February 1977

Editorial. Hospital Laboratory Management. GEORGE J. CARROLL .....	117
Myospherulosis of the Paranasal Sinuses, Nose and Middle Ear. A Possible Iatrogenic Disease. MICHAEL KYRIAKOS .....	118
Prostatic Carcinoma and Needle Aspiration Biopsy. TILDE S. KLINE, DAVID M. KELSEY, AND F. PETER KOHLER ...	131
Urinary Cytodiagnosis of Acute Renal Allograft Rejection Using the Cytocentrifuge. G. BERRY SCHUMANN, RICHARD L. BURLESON, JOHN BERNARD HENRY, AND DAVID B. JONES .....	134
Identification of <i>Cryptococcus neoformans</i> in Cytologic Preparations of Cerebrospinal Fluid. PATRICIA SAIGO, P. PETER ROSEN, MARK H. KAPLAN, GEROLD SOLAN, AND MYRON R. MELAMED .....	141
Orosomucoid Contents of Pleural and Peritoneal Effusions of Various Etiologies. ANGELO AGOSTONI AND BIANCA MARASINI .....	146
Economic Impact of a Computer-based Centralized Organization in a Clinical Laboratory. BERL NUSSBAUM, TATE MINCKLER, ROBERT ROBY, AND EUGENE ACKERMAN .....	149
An Automatic Leukocyte Analyzer. Validity of Its Results. CHARLES F. ARKIN, MAUREEN A. SHERRY, ARLENE G. GOUGH, AND BRADLEY E. COPELAND .....	159
Acquired Factor X Deficiency and Amyloidosis. JOHN R. KRAUSE .....	170
Quantitative Counterimmunoelectrophoresis for Urinary Fibrinogen-related Antigens. GUILLERMO RUÍZ-REYES, DANIEL TABE-TABE, AND EMILIO EXAIRE-MURAD .....	174
Platelet-derived Acid Phosphatase Isoenzyme in the Serum in Thrombocythemia. MEHDI TAVASSOLI AND ROBERT YELENOSKY .....	177
Instability of the Oxy Form of Sick Hemoglobin and of Methemoglobin in Isopropanol. THOMAS A. BENSINGER AND ERNEST BEUTLER .....	180
Ecology of 350 Isolates of Group F. Streptococcus. ROBERT M. BANNATYNE AND CLARE RANDALL .....	184
Antimicrobial Susceptibility Patterns (Antibiograms) as an Aid in Differentiating <i>Citrobacter</i> Species. PAUL M. SOUTHERN, JR., AND MARY K. BAGBY .....	187
Postmortem Bacteriology and Pneumonia in a Mentally Retarded Population. ANTHONY P. POLEDNAK .....	190
News and Notices .....	196
Letters to the Editor:	
HBsAg in Commercial Control Materials. ROBERT E. WENK AND SIDNEY YOHO .....	197
Blood Cultures: The Importance of Aerobic and Anaerobic Atmospheres of Incubation. JOHN A. WASHINGTON, II, AND GLENN D. ROBERTS .....	199
The Authors' Reply. HERBERT BRAUNSTEIN AND MICHAEL TOMASULO .....	199
Bacillary Bodies in Whipple's Disease. JAN PIŤHA .....	200
The Authors' Reply. J. T. LIE AND JOYCE S. DAVIS .....	201
Quality Control Charts in the Clinical Laboratory. JOSE MARIA IZQUIERDO .....	201
Self-induced Hypersecretion of Carbonate in Urine. CARL H. HAGEN .....	201
Abstracts of Papers, Scientific Sessions of the Fall Program of the American Society of Clinical Pathologists, October 21-29, 1976 .....	203

## Number 3, March 1977

Preparation and Use of a Quality Control Hemolysate for Microchromatographic Determinations of Hemoglobin A <sub>2</sub> . ROBERT M. SCHMIDT, EFFIE M. BROSIUS, AND JANE M. WRIGHT .....	215
Hemoglobin A <sub>2</sub> Levels in Health and Various Hematologic Disorders. JACK B. ALPERIN, PATRICIA A. DOW, AND MOZELLAR B. PETTEWAY .....	219
Immunoblastic Sarcoma. DONALD M. KURTZ .....	227
The Effects of Tissue Processing on Markers for T and B Cells from Solid Tissues. PETER R. MILLARD, BRUCE S. RABIN, THERESA L. WHITESIDE, AND JEFFREY D. HUBBARD .....	230
Fibrinogen Seattle. A Qualitatively Abnormal Fibrinogen in a Patient with Tetralogy of Fallot. HERMAN E. BRANSON, GOTTFRIED SCHMER, AND DAVID H. DILLARD .....	236

A Computer Program to Record Technical Data in Leukapheresis and Plateletpheresis Procedures. LAWRENCE M. GOODSITE, CLYDE M. STAUFFER, IV, RUBY F. WHITE, AND DOUGLAS W. HUESTIS .....	241
Evaluation of a High-resolution Electrophoresis System. TSIEH SUN, SHIU-KEE CHAN, AND STANLEY GROSS .....	247
Effect of Pulmonary Tuberculosis on Blood Concentrations of Copper and Zinc. JOHN D. BOGDEN, DAVID I. LINTZ, MORRIS M. JOSELOW, JAMES CHARLES AND JOHN S. SALAKI .....	251
Screening Hospital Patients for Hepatitis B Surface Antigen. CALVIN C. LINNEMANN, JR., MARION E. HEGG, NANCY RAMUNDO, AND GILBERT M. SCHIFF .....	257
Interaction of Blood with Enterobacteriaceae. Hemolysis, Hemagglutination, Fibrinolysis. FREDY P. ROLAND .....	260
Standardized Disk-diffusion Susceptibility Test for <i>Haemophilus influenzae</i> . JAMES H. JORGENSEN AND JEAN C. LEE .....	264
Evaluation of the API 20 C for Identification of Yeasts. PETER ZWADYK, JR., RENA A. TARLTON, AND ARDELLE PROCTOR .....	269
Systematic Evaluation of the World Health Organization Classification of Salivary Gland Tumors. A Clinicopathologic Study of 366 Cases. FRANCIS E. SHARKEY, M.D. ....	272
Choriocarcinoma in Mother and Child, Identified by Immunoenzyme Histochemistry. ARIE C. NIEUWENHUIZEN KRUSEMAN, MAT VAN LENT, ANNEKE H. BLOM, AND G. PAM LAUW .....	279
Bilateral Nephromegaly and Multiple Pulmonary Cysts. ARTHUR G. WEINBERG AND ROSS E. ZUMWALT .....	284
IgA-IgG Nephropathy. A Clinicopathologic Entity with Slow Evolution and Favorable Prognosis. HENRY JOSHUA, ZEEV SHARON, ELEN GUTGLAS, JOSEPH ROSENFELD, AND MINA BEN-BASSAT .....	289
Unilateral Salpingitis Due to <i>Enterobius vermicularis</i> . ROSILIE O. SAFFOS AND RONALD M. RHATIGAN .....	296
A Fixative for Intestinal Parasites Permitting the Use of Concentration and Permanent Staining Procedures. JAMES YANG AND THEODORE SCHOLTEN .....	300
News and Notices .....	305
Letters to the Editor:	
Benign Epithelial Inclusions in Pancreatic Nerves. JOSE COSTA .....	306
Polycystic "Dystrophy" of the Esophagus. MARIO PIAZZA AND PAOLO DALLA PALMA .....	307
Dr. Umlas' Reply. JOEL UMLAS .....	308
The Relative Merits of Bone Marrow Biopsy and Particle Section Technics. RICHARD S. NEIMAN .....	308
The Relative Merits of Bone Marrow Biopsy and Particle Section Technics. ANTONIO COPPOLA AND THOMAS ATHANASSIADES .....	309
The Relative Merits of Bone Marrow Biopsy and Particle Section Technics. THOMAS H. MCCONNELL .....	310
Focal Glomerular Sclerosis in Children. JAY BERNSTEIN .....	310
The Authors' Reply. EDWARD C. KOHAUT, DON B. SINGER, AND L. LEIGHTON HILL .....	311
Ionized Calcium—Its Relationship to Albumin and Total Protein. PAUL POTTGEN AND E. R. DAVIS .....	311
Dr. Ryden's Reply. SALLY E. RYDEN .....	312
Electronic Platelet Counts. IRWIN M. WEISBROT .....	313
Dr. Gottfried's Reply. EUGENE L. GOTTFRIED .....	313

#### Number 4, April 1977

Necrotizing Sialometaplasia. A Source of Confusion with Carcinoma of the Palate. ROBERT E. FECHNER .....	315
Ovarian Thecal Metaplasia in Adrenal Glands. WILLIAM J. FIDLER .....	318
Atypical Stromal Hyperplasia of the Prostate Gland. ED. 'B. ATTAH AND M. E. A. POWELL .....	324
Ultrastructure of Lymphoid Interstitial Pneumonia. Virus-like Particles in Bronchiolar Epithelium of a Patient with Sjögren's Syndrome. SEPPU SUTINEN, SIRKKA SUTINEN, AND ESKO HUHTI .....	328
Acute Myelofibrosis. A Report of Three Cases. DOUGLAS R. FABICH AND PETER C. RAICH .....	334
Chronic Myelomonocytic Leukemia. An Ultrastructural Study by Transmission and Scanning Electron Microscopy. LEO F. SKINNIDER, ROBERT T. CARD, AND SUBBARAO PADMANABH .....	339
Cellular and Humoral Immunity in Non-Hodgkin's Lymphoma. Correlation of Immunodeficiencies with Clinicopathologic Factors. MEL LAPES, MARTIN ROSENZWEIG, BARBARA BARBIERI, ROSALINE R. JOSEPH, AND RICHARD V. SMALLEY .....	347
Platelet Factor 4 Activity and Thromboembolic Episodes. TAKASHI OKUNO AND DALE CROCKATT .....	351
Correlation of the Serial-dilution Protamine Sulfate Test with Models of "Hypercoagulability" and Thrombosis in Dogs. P. BAILEY FRANCIS AND JAMES WILSON, III .....	356
Effect of Dibutyl Cyclic Adenosine monophosphate and Prostaglandin E <sub>1</sub> on Platelet Aggregation and Shape Changes. TEH Y. WANG, CLARA V. HUSSEY, AND JOHN C. GARANCIS .....	362
Esterase Activity in Erythroleukemia. LAWRENCE KASS .....	368

Periodic Acid-Schiff-positive Megaloblasts in Pernicious Anemia. LAWRENCE KASS .....	371
A Comparative Study of Technics for the Detection of Antibodies to Native Deoxyribonucleic Acid. PAUL DAVIS, ANTHONY S. RUSSELL, AND JOHN S. PERCY .....	374
Development and Description of the "Random Duplicates" Method of Quality Control for a Hematology Laboratory. K. C. CARSTAIRS, EREN PETERS, AND ELIZABETH J. KUZIN .....	379
Pooled Normal Values, a Useful Technic. MURIEL K. SCHAUBLE, JACK M. BECKTEL, HERBERT D. GULLICK, AND LEONARD S. KAPLOW .....	386
Screening of Mammary Carcinoma for Hormone Dependency <i>in Vitro</i> . Enzymatic Activity in Short-term Organotypic Cultures of Breast Biopsies from 62 Patients. GINO A. MONTESSORI, F. THOMAS ALGARD, JOHANNES P. VAN NETTEN, AND JAMES C. DONALD .....	393
Comparative Sensitivities of Viruses to Cell Cultures and Transport Media. WILLIAM A. RUTALA, DOROTHY F. SHELTON, AND DAVID ARBITER .....	397
News and Notices .....	401
Letters to the Editor:	
SI Units in Clinical Chemistry—An Objective Reappraisal. J. E. BUTTERY AND E. S. C. QUEK .....	402
Dr. Beeler's Reply. MYRTON F. BEELER .....	404
Pathology Manpower. JAMES R. ADAMS, JR. ....	404
Dr. Benson's Reply. ELLIS S. BENSON .....	405
Forecasting in Pathology. ROLLA B. HILL, JR. AND ROBERT E. ANDERSON .....	405

## Number 5, May 1977

Sailing the Magnificent Puddle (Pathology Afloat). <i>Ward Burdick Award Lecture</i> . EDWARD A. GALL .....	407
Splenic Pseudosinususes and Hepatic Angiomatous Lesions. Distinctive Features of Hairy Cell Leukemia. KOJI NANBA, EDWARD J. SOBAN, MARY C. BOWLING, AND COSTAN W. BERARD .....	415
Primary Osteosarcoma of Bone. A Clinicopathologic Investigation of 243 Cases, with Necropsy Studies in 54. GONZALO URIBE-BOTERO, WILLIAM O. RUSSELL, WATARU W. SUTOW, AND RICHARD G. MARTIN .....	427
Immune Complex Glomerulonephritis in a Case of Retroperitoneal Fibrosis. SHEILA MORIBER KATZ, OLLICE BATES, MELVIN YUDIS, BONITA FALKNER, AND ELEANOR GRIFFITH .....	436
An Autopsy Protocol for Skin- and Scuba-diving Deaths. THEODORE P. FINDLEY .....	440
Improved Estrogen Receptor Assay in Human Mammary Cancer. Technics for Handling Small Tissue Samples. ROY B. JOHNSON AND ROBERT M. NAKAMURA .....	444
The "Post-heparin Pattern" in Routine Serum Protein Immuno-electrophoresis. THOS. J. MUCKLE .....	450
Determination of Baseline Values for Urinary Carcinoembryonic Antigen-like Substances. WILLIAM M. MURPHY AND JACQUES P. VANDEVOORDE .....	455
Anti "i" Antibody and Hemolytic Anemia Associated with Spontaneous Cytomegalovirus Mononucleosis. BYRON S. BERLIN, ROBERT CHANDLER, AND DAVID GREEN .....	459
Determination of Factor VIII-related Antigen Using Commercial Antisera. JUAN CHEDIAK, BETTY MAXEY, AND MARGARET TELFER .....	462
Analysis and Interpretation of the Impedance Blood Coagulation Curve. AMIRAM UR .....	470
Variation among Commercial Activated Partial Thromboplastin Time Reagents in Response to Heparin. GABRIEL A. SHAPIRO, SAUNDRA W. HUNTZINGER, AND JAMES E. WILSON, III .....	477
Simultaneous Demonstration of Peroxidase and Lysozyme Activities in Leukemic Cells. TAKESHI KAGEOKA, KOJI NAKASHIMA, AND SHIRO MIWA .....	481
Esterase Reactions in Acute Myelomonocytic Leukemia. LAWRENCE KASS .....	485
Reliability of the Microdilution Technic for Detection of Methicillin-resistant strains of <i>Staphylococcus aureus</i> . ARTHUR L. BARRY AND ROBERT E. BADAL .....	489
Comparative Recoveries of Chlamydia from Urethral Specimens Using Glass Vials and Plastic Microtiter Plates. THOMAS F. SMITH .....	496
Isolation of <i>Klebsiella ozaenae</i> and <i>Klebsiella rhinoscleromatis</i> in a General Hospital. STEPHEN A. BERGER, ALAN A. POLLOCK, AND ALMA SUE RICHMOND .....	499
News and Notices .....	503
Letters to the Editor:	
Blood Groups and Response to Therapy for Mammary Cancer. PAUL PETER ROSEN, MORTON K. SCHWARTZ, AND CELIA J. MENENDEZ-BOTET .....	504
Serum Ionic Calcium Measurement. PHILIP ALTMAN .....	505
Statistical Terminology. R. G. PATTON .....	505

Dr. Woo's Reply. JANNIE WOO .....	506
Green Birefringence of Amyloid. PETER P. LADEWIG .....	506

## Number 6, June 1977

Prospects of Cure in Lymphocyte-Predominant Hodgkin's Disease. COLIN J. E. WRIGHT .....	507
Malignant Myeloid Leukemia. Myeloproliferative Disorder or Leukemia? THOMAS BIRD AND STEPHEN J. PROCTOR .....	512
Hodgkin's Disease of the Thymus (Granulomatous Thymoma) and Myasthenia Gravis. A Unique Association. JEFFREY A. NULL, VIRGINIA A. LIVOLSI, AND WILLIAM W. L. GLENN .....	521
Mutagenicity of Benzidine and Related Compounds Employed in the Detection of Hemoglobin. JOSEPH J. FERRETTI, WUAN LU, AND MONG-BING LIU .....	526
Platelet Aggregation and the Ouabain-insensitive ATPase. Ecto-ATPase, Reflection of Membrane Integrity. TEH YU WANG, CLARA V. HUSSEY, EDWARD A. SASSE, AND LAWRENCE L. HAUSE .....	528
An Improved Procedure for Quantitation of Platelet Factor 4. ABDUS SALEEM AND KAY FRETZ .....	533
Rapid Screening for Lupus Erythematosus Cells Using Cytocentrifuge-prepared Buffy Coat Monolayers. RICHARD F. GARNET, JR., BARBARA F. ATKINSON, HUGH BONNER, AND HAROLD A. WURZEL .....	537
Amyloid AA Protein. Cellular Distribution and Appearance. SHAW WATANABE, ELAINE JAFFE, SCOTT POLLOCK, JEAN SIPE, AND GEORGE GLENNER .....	540
Epithelioid Germinal Centers. An Acquired Immunologic Deficit? PAUL D. MILLIKIN .....	545
Microgranulomas in Grossly Normal Rectal Mucosa in Crohn's Disease. HEIDRUN ROTTERDAM, BURTON I. KORELITZ, AND SHELDON C. SOMMERS .....	550
Myospherulosis. An Electron-microscopic Study of a Human Case. KATHERINE DE SCHRYVER-KECKEMETI, AND MICHAEL KYRIAKOS .....	555
Leydig-Cell Tumor of the Testis with Gynecomastia and Elevated Estrogen Levels. WILLIAM S. SHIMP, ALVIN L. SCHULTZ, JOHN R. HASTINGS, AND W. ROBERT ANDERSON .....	562
Amnion Nodulum and Congenital Ichthyosis. APARECIDA, G. P. GARCIA, SÔNIA MARIA CONSORTE, ANA MARIA ARRUDA LANA, AND ROLDÃO FRIEDE .....	567
Immunodiagnosis of Melanoma Using Chimpanzee Antihuman Melanoma Antiserum. GARY M. STUHLMEYER, JAMES A. BOYLSTON, HILLIARD F. SEIGLER, AND BERNARD F. FETTER .....	573
Differentiation of Renal Tubular Epithelium in Renal Transplantation Cytology. G. BERRY SCHUMANN, LAWRENCE J. PALMIERI, AND DAVID B. JONES .....	580
Measurement of Urinary and Serous-fluid Glycosaminoglycans and Urinary Hydroxyproline. JAMES C. RITCHIE, SUSAN F. SMITH, AND C. WILLIAM CASTOR .....	585
Steroid Profile in a Case of Adrenal Carcinoma with Severe Hypertension. SIANG-YONG TAN, MYRON GENEL, BARR H. FORMAN, AND PATRICK J. MULROW .....	591
Evaluation of Clinical Chemistry Laboratory Performance in Twenty Virginia Hospitals. BERNARD W. STEELE, MURIEL K. SCHAUBLE, JACK M. BECKTEL, AND JACOB E. BEARMAN .....	594
Diagnosis of Intestinal Parasitic Infestation. Study of Two Methods for Collection of Specimens. CARLOS GARROCHO-SANDOVAL AND ANTONIO TORRES-RUVALCABA .....	603
News and Notices .....	606
Letters to the Editor:	
Hereditary Factor VII Deficiency and Increased Contact Activation Time. DOUGLAS A. TRIPLETT .....	607
Dr. Hattersley's Reply. PAUL G. HATTERSLEY .....	607
Pseudo-Chediak-Higashi Anomaly in Chronic Myelogenous Leukemia with Myelofibrosis. LIU-MEI C. TSAI, CHENG-CHANG TSAI, AND DANIEL J. LADD .....	608
Adrenal Medullary Disease in Multiple Endocrine Neoplasia, Type 2. J. W. VISSER AND REGINA AXT .....	610
Dr. Carney's Reply. J. AIDAN CARNEY .....	611
Index to Volume 67 .....	613

## INDEX OF SUBJECTS

### Original Articles

#### A

- Abnormal hemoglobins, see under Hemoglobin(s)
- Abscess(es), tubo-ovarian, unilateral, actinomycosis in presence of intrauterine device, 622
- Acanthamoeba, immunoperoxidase staining in formalin-fixed tissue (letter), 529
- Acanthamoeba culbertsoni*, scanning electron microscopy of as observed in subarachnoid space, 485
- Accuracy, see also Precision
- Achondroplasia, myelopathy, upper cervical, in, 68
- Acid, folic, see Folic acid
- Acid phosphatase, see under Phosphatase(s)
- Acid-base equilibrium, blood, quality control using daily mean of patients' results, 327
- Acidosis, lactate in arterial blood, measurement in care of critically ill, 63
- Actinomyadura madurae*, drug susceptibilities, method for determining, 279
- Actinomycete(s), aerobic, drug susceptibilities, method for determining, 279
- Actinomycosis, pelvic, in presence of intrauterine device, 622
- Activated partial thromboplastin time, see under Thromboplastin time, partial
- Activation, plasminogen, Hageman trait, thromboembolism in, 420
- Acute leukemia, see under Leukemia(s)
- Acute lymphoblastic leukemia, see under Leukemia(s), lymphoblastic
- Acute lymphocytic leukemia, see under Leukemia(s), lymphocytic
- Acute monocytic leukemia, see under Leukemia(s), monocytic
- Adenocarcinoma(s), prostatic, bone marrow acid and alkaline phosphatases, diagnostic use (letter), 92
- Adenoma(s)  
see also Fibroadenoma(s)  
pleomorphic, clinicopathologic study of 40 cases of intranasal mixed tumors, 213  
unicryptal, colonic, in non-polyposis individual (letter), 631
- Adenovirus(es), isolation, monkey kidney cell cultures for, cynomolgus and rhesus cells compared, 276
- Adenylation, enzymatic, gentamicin assay, 566
- Adult acute lymphocytic leukemia, see under Leukemia(s), lymphocytic, acute
- Adult respiratory distress syndrome, serum angiotensin-converting enzyme decreased in (abstract), 108
- Aerobic actinomycete, see under Actinomycete(s)
- Agammaglobulinemia, IgA, latex-particle test in detection (abstract), 98
- Agar, bone marrow cultures in, leukemia, pure acute monocytic, 752
- Age factors, enzymatic activity patterns in probability population samples, 587
- Agglutination, nonspecific, latex agglutination in diagnosis of bacterial infections, 284
- Aggregation, platelet, see under Platelet(s)
- Aggregometer(s), comparison of three (abstract), 97
- Air contaminants, xylene toxicity (letter), 425
- Alanine aminotransferase, interlaboratory survey of enzymatic analyses (CAP survey), 142
- Algorithm, octal, for pattern coding and computer-assisted interpretative reporting, 575
- Alkaline phosphatase(s), see under Phosphatase(s)
- Allescheria boydii*, case of infection with from Ontario, 299
- Allescheriasis, pulmonary, case from Ontario, 299
- Alpha<sub>1</sub>-antitrypsin, see under Antitrypsin
- Alpha-fetoprotein, oncofetal antigens, clinical significance (symposium), 679
- Alveolitis, fibrosing, desquamative interstitial pneumonitis cellular phase of (abstract), 105
- Ameba(s), soil, immunoperoxidase staining in formalin-fixed tissue (letter), 529
- Amebic meningoencephalitis, see under Meningoencephalitis
- American Society of Clinical Pathologists  
Basic Science Research Symposium, eleventh annual (symposium), 633  
reference centers, pathology (editorial), 312
- Amniocentesis, fetal maturity assessment, 235
- Amniotic fluid  
fetal maturity assessment by analysis of, 235  
fluorescent polarization to determine fetal lung maturity (abstract), 107
- Ampicillin  
*Haemophilus influenzae* resistant to, beta-lactamase test in detection, 351  
resistance of *Haemophilus influenzae*, beta-lactamase test in detection, 351
- Amylase, urinary chemistry interlaboratory survey (CAP survey), 153
- Analysis  
goals for performance, guidelines for clinical chemistry quality control based on long-term experience of 61 hospitals, 463  
systems, blood-gas analysis, mathematical model of workstation for, 321
- Analyte(s), clinical chemistry, precision for 14 (CAP survey), 130
- Analytic balance(s), interlaboratory survey (CAP survey), 207
- Analyzer(s)  
automated  
fourth-generation computerized discrete biochemical analyzer (abstract), 100  
SMA 6, rates of change of test results (abstract), 101  
Centrifichem system evaluated (abstract), 100  
centrifugal, kinetic acid phosphatase method evaluated, 57
- Androgen(s), amniotic fluid, in prediction of fetal sex (abstract), 101
- Anemia(s)  
dyserythropoietic, congenital (abstract), 106  
hemolytic  
autoimmune, warm and cold antibody types (symposium), 638  
non-spherocytic, erythrocytic pyruvate kinase isoenzyme with impaired kinetics corrected by fructose-1,6-diphosphate, 229  
megaloblastic, transfusion effects on serum iron, serum lactate dehydrogenase, and platelets in, 458  
microcytic, thalassemia minor versus iron deficiency in children (letters), 316; 316  
pernicious, esterase activity, nonspecific, in, cytochemical and electrophoretic study, 273
- Angioglomoid tumor, see under Tumor(s)

- Angioimmunoblastic lymphadenopathy, see under Lymphadenopathy
- Angioma(s), peribulbar hemangioma of breast, benign microscopic vascular lesion, 21
- Angiotensin(s), I, angiotensin-converting enzyme fluorimetric assay with, 225
- Angiotensin-converting enzyme, see under Enzyme(s)
- Anomaly(ies), congenital  
achondroplasia, myelopathy, upper cervical, in, 68  
anemia, dyserythropoietic (abstract), 106
- Antibiotic(s)  
see also Antimicrobial(s)  
tobramycin, automated susceptibility system evaluation, 769  
trimethoprim-sulfamethoxazole, thymidine-dependent strain of *Salmonella oslo* selected by, 307
- Antibody(ies)  
see also Autoantibody(ies)  
anti-lymphocyte, immunoperoxidase antiglobulin technic in detection, 347  
antinuclear  
detection using surface immunofluorometric method (abstract), 99  
immunofluorescence tests in immune technics and applications (symposium), 662  
blood group, pneumatic tube system transport, immunologic studies of blood samples after, 508  
cold, in autoimmune hemolytic anemia (symposium), 638  
cytomegalovirus, counterimmunoelectrophoresis in rapid detection, 343  
detection, blood bank comprehensive survey program, 1975 (CAP survey), 175  
DNA, double-stranded, comparison of indirect immunofluorescent test using *Crithidia luciliae* and DNA binding assay (abstract), 103  
IgM, to DNA and RNA in autoimmune disease, biological significance (symposium), 643  
warm, in autoimmune hemolytic anemias (symposium), 638
- Antigen(s)  
see also Isoantigen(s)  
bacterial  
detection methods compared, 284  
titers, latex agglutination in diagnosis of bacterial infections, 284  
urinary excretion, latex agglutination in diagnosis of bacterial infections, 284  
carcinoembryonic  
radioimmunoassay, increasing specificity (symposium), 679  
radioimmunoassay, proficiency testing (CAP survey), 170  
detection, hemagglutination for melanoma-specific cytoplasmic antigens, 24  
hepatitis B, carriers, bioethical questions related to, 340  
hepatitis B surface  
carcinoma, hepatocellular, association with, changing incidence in California, 1  
radioimmunoassay detection, sensitivity improved (abstract), 102  
survey results, AAB-B-CAP (CAP survey), 210  
leukemia-associated, human, serologic studies of diagnosis and nosology of human leukemia (symposium), 699  
melanoma-specific cytoplasmic, hemagglutination for detection, 24  
oncofetal, clinical significance (symposium), 679  
red cell adherence test, quantitative (abstract), 102  
tumor-associated, immunologic tests in cancer diagnosis (symposium), 688
- Anti-lymphocyte antibodies, see under Antibody(ies)
- Antimicrobial(s)  
see also Antibiotic(s)  
automated susceptibility system evaluated, 769  
susceptibility testing  
actinomycetes, aerobic, 279  
automated system evaluated, 769  
*Haemophilus influenzae*, beta-lactamase test in detection of ampicillin resistance, 351
- Antinuclear antibodies, see under Antibody(ies)
- Anti-platelet drug, see under Drug(s)
- Antiserum(a)  
commercial, radioimmunoassay for serum unconjugated estril using, 474  
nonhuman primate, in serologic studies of diagnosis and nosology of human leukemia (symposium), 699
- Antithrombin III, Factor VIII and in patients with neoplasms, 258
- Antitrypsin, alpha<sub>1</sub>-, protein marker in oral-contraceptive associated hepatic tumors, 736
- Anus, apocrine fibroadenomas, multiple, of anal skin, 397
- Aorta, dissection complicating aortocoronary saphenous vein bypass, 729
- Aortocoronary saphenous vein bypass  
aortic dissection complicating, 729  
myocardial alterations associated with, 721
- Apocrine fibroadenoma, see under Fibroadenoma(s)
- Apocrine sweat gland, see under Gland(s), sweat
- Apparatus, see also Instrument(s)
- ARDS, see Adult respiratory distress syndrome
- Arteriole(s), intramyocardial, cigarette smoking effects on, 493
- Artery(ies)  
coronary, bypass, myocardial alterations associated with, 721  
endarteritis, *Salmonella*, due to lactose-fermenting strain, misdiagnosed, 416  
intramyocardial, cigarette smoking effects on, 493
- Arthritis, rheumatoid, zeta sedimentation ratio and disease activity in, 760
- Asbestos  
bodies, electron microscopic examination, method of preparation, 513  
ferruginous bodies, electron microscopic examination, method of preparation, 513
- Ascorbic acid, urinary glucose tests and, 592
- Aspartate aminotransferase, interlaboratory survey of enzymatic analyses (CAP survey), 142
- Aspirate(s)  
see also Biopsy(ies)  
bone marrow  
lymphoid follicles in (letters), 315; 315  
sternal, early detection of malignant metastatic cells in (abstract), 97  
liver, cytology (abstract), 97
- Aspiration biopsy, see under Biopsy(ies)
- Assay(s)  
B cells in immunologic diseases (symposium), 671  
fibrinogen, reaction-rate and clot-density methods compared, 45  
fluorimetric, angiotensin-converting enzyme, serum, assay with angiotensin I, 225  
fluoroimmunoassay  
solid-phase, antinuclear antibodies detected by (abstract), 99  
solid-phase, diagnostic index for differential diagnosis of connective-tissue disease vs. infectious phenomena vs. malignancy (abstract), 100

- folate, serum, sodium ascorbate concentration effect on stability of samples, 481
- gentamicin, serum, by enzymatic adenylation, 566
- radioimmunoassay
- hepatitis B surface antigen detection by, improving sensitivity (abstract), 102
  - triiodothyronine kits evaluated (abstract), 99
- radioimmunoprecipitation, immune and autoimmune reactions diagnosed by (symposium), 660
- T cells in immunologic diseases (symposium), 671
- washing paper disks for gentamicin and other assay procedures, device for, 598
- Asteroid bodies in sarcoidosis (abstract), 99
- Atomic absorption spectrophotometry, see under Spectrophotometry
- Atypical fibrous histiocytoma, see under Histiocytoma(s), fibrous
- Autoimmune disease
- complement testing in diagnosis (symposium), 647
  - IgM and IgG antibodies to DNA and RNA in, biological significance (symposium), 643
  - immunofluorescence tests in immune techniques and applications (symposium), 662
- Autoimmune hemolytic anemia, see under Anemia(s), hemolytic
- Autoimmune reactions
- laboratory diagnosis, basic principles and practical applications, introduction (symposium), 635
  - radioimmunoprecipitation assays in diagnosis (symposium), 660
- Automated analyzer, see under Analyzer(s)
- Automated antimicrobial susceptibility system, see under Antimicrobial(s)
- Automated instrument, see under Instrument(s)
- Automation, antimicrobial susceptibility system, evaluation, 769
- Autopsy(ies), see also Necropsy(ies)

## B

- B cell(s), see under Cell(s); Lymphocyte(s)
- B cell acute lymphocytic leukemia, see under Leukemia(s), lymphocytic, acute
- B cell lymphoma, see under Lymphoma(s)
- B immunoblast, see under Immunoblast(s)
- B lymphocytic lymphoma, see under Lymphoma(s)
- Bacteremia
- counterimmunoelectrophoresis for rapid detection in community hospital (abstract), 102
  - Pseudomonas maltophilia*, mitral valve prolapse associated with, 304
- Bacterial antigen, see under Antigen(s)
- Bacterial infection, see under Infection(s)
- Bacterial meningitis, see under Meningitis
- Bacteriology, see also Microbiology; individual genera
- Bacterium(a)
- see also individual genera
  - colonization, *Corynebacterium xerosis* isolation from clinical specimens, 290
  - intraleukocytic spore formation and leukocytic vacuolization during *Clostridium perfringens* septicemia, 794
- Balance(s), analytic, interlaboratory survey (CAP survey), 207
- Benzidine in microdetermination of hemoglobin, substitute for (abstract), 108
- Beta-lactamase test, *Haemophilus influenzae* resistance to ampicillin detection by, 351
- Biochemical profile(s), report forms compared (letter), 426

- Bioethics, hepatitis B antigen carriers, 340
- Biopsy(ies)
- see also Aspirate(s)
  - aspiration, fine-needle, of breast (abstract), 106
  - bone marrow, positive, in suspected metastatic disease (abstract), 97
  - lung, transbronchial, evaluation, 17
- Bleeding time, "anti-platelet" drug effects on in normal human subjects, 355
- Blood
- see also under Blood banks; Coagulation; Hematology; Hemodialysis; Transfusion(s); specific constituents and determinations
  - carboxyhemoglobin not elevated in six flash-fire victims, 317
  - counts
    - see also under individual cells
    - differential leukocyte counts, performance criteria for (CAP survey), 202
    - differential, platelet satellitism as cause of abnormal results, 758
  - gases
    - analysis, mathematical model of workstation for, 321
    - lactate in arterial blood, measurement in care of critically ill, 63
  - glucose estimation, screening method, rapid, 336
  - samples, pneumatic tube system of transport, immunologic studies of samples after use, 508
  - sedimentation rate, erythrocyte, recommendation for measurement in human samples, International Committee for Standardization in Haematology, 505
- Blood bank(s)
- see also Transfusion(s)
  - elective surgical procedures, blood utilization in and financial implications (letter), 630
  - erythrocytes, frozen, thawed, 28 months' experience, 250
  - hepatitis B surface antigen testing of AABB-CAP survey samples, results (CAP survey), 210
  - maximum surgical blood order schedule (letter), 630
  - pneumatic tube transport system, immunologic studies of blood samples transported by, 508
  - survey, interlaboratory, 1975 (CAP survey), 175
- Blood counter, see under Counter(s)
- Blood group antibodies, pneumatic tube system transport, immunologic studies of blood samples after, 508
- Blood group substances, semen identification in cases of alleged rape, 740
- Bone(s)
- angiogliomoid tumor (abstract), 106
  - histiocytoma, fibrous, atypical, of humerus, 409
  - humerus, histiocytoma, fibrous, atypical, 409
  - marrow
    - aspirates, lymphoid follicles (letters), 315; 315
    - cultures in agar, leukemia, pure acute monocytic, 752
    - imprints in diagnosis of leukemic reticuloendotheliosis, 368
    - phosphatases, acid and alkaline, diagnostic use (letter), 92
    - positive biopsies in suspected metastatic disease (abstract), 97
    - sternal, early detection of malignant metastatic cells (abstract), 97
- Boronic acid buffer, see under Buffer(s)
- Breast(s)
- biopsy, aspiration, fine-needle (abstract), 106
  - cancer
    - estrogen receptor detection by immunofluorescence (abstract), 104

- lipid in invasive, 558
- hemangioma, perilobular, benign microscopic vascular lesion, 21
- ultrastructure (letters), 90; 90
- Bronchoscope(s), fiberoptic, biopsy, transbronchial, of lung evaluated, 17
- Buffer(s), boronic acid, counterimmunoelectrophoresis diagnosis of bacterial meningitis improved by (abstract), 102
- Burkitt's lymphoma, see under Lymphoma(s)
- Bypass
  - coronary artery
  - aortic dissection complicating, 729
  - myocardial alterations associated with, 721

## C

## Calcium

- precision of clinical chemistry determinations as shown by relation of concentration to coefficient of variation (CAP survey), 130

## urinary chemistry interlaboratory survey (CAP survey), 153

## Calibration

- hematology instruments, automated (CAP survey), 185
- hemoglobinometry automated instruments (CAP survey), 180
- platelet counting methods (CAP survey), 195

## Cancer(s)

- see also Carcinoma(s); Malignancy(ies); Neoplasm(s); Tumor(s); specific types

- clear cell, mammary, relation to lipid-rich cancer, 558
- coagulation pathway in patients with, 258
- hepatic, hepatitis B association with, changing incidence in California, 1
- immunologic tests in diagnosis (symposium), 688
- lipid-rich, mammary invasive, 558
- mammary
  - estrogen receptor detection by immunofluorescence (abstract), 104
  - lipid in invasive, 558

- solid, nitroblue tetrazolium tests, spontaneous and stimulated, of leukocytes, 570

*Candida albicans*, cutaneous hypersensitivity correlated with lymphocytic response, 499*Candida tropicalis*, germ-tube positive, 294

## Candidiasis, disseminated, changes in incidence, underlying diseases, and pathologic characteristics, 29

## CAP, see College of American Pathologists

## CAPER, see under Computer(s)

## Carboxyhemoglobin, fire victims, flash fires, six fatalities without elevated carboxyhemoglobin, 317

## Carcinoembryonic antigen, see under Antigen(s)

## Carcinoid(s), testicular, primary (abstract), 106

## Carcinoma(s)

- see also Cancer(s); Neoplasm(s); Tumor(s); specific types
- endometrioid, extraovarian, 522
- hepatocellular, hepatitis B association with, changing incidence in California, 1

## laryngeal, isoantigens A, B, and H in, 372

## Cast(s), urinary, ultrastructure, surface, 547

## CEA, see Antigen(s), carcinoembryonic

## Cell(s)

- see also Cytology; specific cells
- B cell/T cell ratio, preservation in method for lymphocyte purification, 763
- B lymphocytes and T lymphocytes, mixed proliferation in immunoblastic lymphadenopathy, 518

## counting

- see also under Blood counts; Counter(s); specific cells
- calibration methods for automated hematology instruments (CAP survey), 185

## culture, see under Culture(s)

## fat, fetal, amniotic fluid analysis in assessment of fetal maturity, 235

## hairy

- B-lymphocyte origin in case of hairy cell leukemia, 778
- leukemic reticuloendotheliosis, differential diagnosis, cytochemical test reassessed, 268

liver, tumors, oral contraceptive-associated, alpha<sub>1</sub>-antitrypsin protein marker in, 736

## T cell/B cell ratio, preservation in method for lymphocyte purification, 763

## T lymphocytes and B lymphocytes, mixed proliferation in immunoblastic lymphadenopathy, 518

## Centrifichem, see under Analyzer(s)

## Centrifugal analyzer, kinetic acid phosphatase method evaluated, 57

## Cervical myelopathy, see under Myelopathy(ies)

## Chemistry, clinical

- see also specific components and tests
- Centrifichem system evaluated (abstract), 100
- concentration related to coefficient of variation for 14 analytes (CAP survey), 130
- precision for 14 analytes, (CAP survey), 130
- quality control, guidelines based on long-term experience of 61 hospitals, 463
- SMA 6, rates of change of test results (abstract), 101
- standards, lyophilized quality control serum, long-term stability of enzymes, total protein and inorganic analytes in (CAP survey), 117
- urinary, survey program, pilot (CAP survey), 153

## Chemistry Resources Committee, College of American Pathologists, urinary chemistry pilot survey (CAP survey), 153

## Chemotherapy, see also Drug(s)

## Chlamydia, genital infections due to, diagnosis in laboratory (abstract), 103

## Chloride-specific electrode, iodide interference with (abstract), 108

## Chloroma(s), preleukemic, of gastrointestinal tract, 616

## Cholesterol, report forms compared (letter), 426

## Chronic erythremic myelosis, see under Myelosis, erythremic

## Chylomicron(s), hyperchylomicronemia effect on hemoglobin measurement, 584

## CIE, see Counterimmunoelectrophoresis

## Cigarette smoking, effects on intramyocardial arteries and arterioles, 493

## Clear cell cancer, see under Cancer(s)

## Clinical chemistry, see under Chemistry

## Clinical enzymology, interlaboratory survey (CAP survey), 142

## Clinical evaluation, kinetic acid phosphatase method, 57

## Clinical pathology, see under Pathology

*Clostridium perfringens* septicemia, intraleukocytic spore formation and leukocytic vacuolization, 794

## Clot(s)

- detection, photo-optical, single-channel instrument, 360
- timer, photo-optical instrument, single-channel, 360

## Clotting, see also Coagulation

## Coagulation

- see also Clotting

- factor defects, Hageman factor deficiency, thromboembolism in, 420
- hypercoagulability, neoplasms, antithrombin III and Factor VIII in patients with, 258
- instruments, prothrombin time system performance predicted using secondary standards (CAP survey), 191
- intravascular
- disseminated, complement consumption in (letters), 93; 94; 95
  - disseminated, nonbacterial thrombotic endocarditis with associated coronary embolism and myocardial infarction, 393
- neoplasms, antithrombin III and Factor VIII in patients with, 258
- photo-optical clot-timing instrument, single-channel, evaluated, 360
- Coagulopathy(ies), platelet glass-bead retention technics in (abstract), 98
- Coding
- computer-assisted, CAPER system, 715
  - disease, octal algorithm for, 575
- Cold antibody, see under Antibody(ies)
- Colitis, fecal leukocytes in enteric infections, 562

Enzyme(s)

see also Isoenzyme(s); specific enzymes

acid phosphatase

semen identification in cases of alleged rape, 740

tartrate-resistant, reaction in differential diagnosis of leukemic reticuloendotheliosis, reassessment, 268

vaginal, quantitation and relationship to time of coitus, 238

adenylation in gentamicin assay, 566

alanine aminotransferase, interlaboratory survey of analyses (CAP survey), 142

alkaline phosphatase

interlaboratory survey of analyses (CAP survey), 142

positive malignant lymphoma, 535

analyses

accuracy and precision in interlaboratory survey (CAP survey), 142

comparison of methods (CAP survey), 142

interlaboratory survey (CAP survey), 142

angiotensin-converting

lysozyme correlation with in sarcoidosis, 219

serum, adult respiratory distress syndrome associated with decrease (abstract), 108

serum, assay, fluorimetric, with natural substrate angiotensin I, 225

aspartate aminotransferase, interlaboratory survey of analyses (CAP survey), 142

creatine phosphokinase, interlaboratory survey of analyses (CAP survey), 142

esterase activity, nonspecific, in chronic erythremic myelosis, cytochemical and electrophoretic study, 273

hydroxyindole-o-methyltransferase activity in pineal in various diseases (abstract), 105

lactate dehydrogenase

activity patterns in probability population samples, 587

interlaboratory survey of analyses (CAP survey), 142

lysozyme

angiotensin-converting enzyme correlation with in sarcoidosis, 219

leukemia, acute monocytic, pure, 752

sarcoidosis associated with elevations in granulomatous lymph nodes and serum, 219

pyruvate kinase, erythrocytic, isoenzyme with impaired kinetics corrected by fructose-1,6-diphosphate, 229

test strip for glucose, vitamin C and, 592

Enzymology, clinical, interlaboratory survey (CAP survey), 142

Equipment, see also Instrument(s)

Erythremic myelosis, see under Myelosis

Erythroblast(s), esterase activity, nonspecific, in pernicious anemia and chronic erythremic myelosis, 273

Erythrocyte(s)

control, scanning electron micrographs in hemoglobinometry calibration (CAP survey), 180

enzyme defects, pyruvate kinase isoenzyme with impaired kinetics corrected by fructose-1,6-diphosphate, 229

frozen, thawed, in blood banking, 28 months' experience, 250

indices, hyperchylomicronemia effect on hemoglobin measurement, 584

isoenzyme, pyruvate kinase (PK-Los Angeles) with impaired kinetics corrected by fructose-1,6-diphosphate, 229

quantitative red cell adherence test (abstract), 102

sedimentation rate

Guest method for determining evaluated, 766

recommendation for measurement in human blood, International Committee for Standardization in Haematology, 505

Westergren method, Guest method compared with, 766

zeta sedimentation ratio compared with in assessment of rheumatoid arthritis disease activity, 760

Erythroenzymopathy(ies), pyruvate kinase isoenzyme with impaired kinetics corrected by fructose-1,6-diphosphate, 229

ESR, see Erythrocyte(s), sedimentation rate

Esterase

chronic erythremic myelosis, nonspecific activity in, cytochemical and electrophoretic study, 273

pernicious anemia, nonspecific activity in, cytochemical and electrophoretic study, 273

stains, see under Stain(s)

Estriol

serum, as maternal index of fetal well-being in high-risk pregnancy (abstract), 107

unconjugated, serum, radioimmunoassay using commercial reagents evaluated, 474

urinary, total, radioimmunoassay using commercial reagents evaluated, 474

Estrogen receptor, see under Receptor(s)

Extraovarian endometrioid carcinoma, see under Carcinoma(s), endometrioid

Eye(s), orbital lymphomas and pseudolymphomas, 377

## F

Factor(s)

VIII and antithrombin III in patients with neoplasms, 258

XII, deficiency, thromboembolism in, 420

Hageman, deficiency, thromboembolism in, 420

Fat cell, see under Cell(s)

Feces, leukocytes in specimens from patients with enteric infections, 562

Fenestration(s), pial, *Acanthamoeba culbertsoni* port of entry into subarachnoid space, 485

Ferruginous bodies, electron microscopic examination, method of preparation, 513

Fetus(es)

fat cells, amniotic fluid analysis in assessment of fetal maturity, 235

lungs, fluorescent polarization of amniotic fluid to determine maturity (abstract), 107

maternal indices of well-being in high-risk pregnancy (abstract), 107

maturity, amniotic fluid analysis in assessment, 235

sex prediction using amniotic fluid androgens (abstract), 101

Fiberoptic bronchoscope, biopsy, transbronchial, of lung evaluated, 17

Fibrin degradation products, false-negative test for, 78

Fibrinogen(s)

assay methods, reaction-rate and clot-density, compared, 45

degradation products, false-negative test for, 78

plasma, reaction-rate and clot-density methods for determination compared, 45

Fibrinolysis, Hageman trait, thromboembolism in, 420

Fibroadenoma(s), apocrine, anal skin, multiple, 397

Fibrosing alveolitis, see under Alveolitis

Fibrous histiocytoma, see under Histiocytoma(s)

Ficoll-Hypaque gradient, lymphocyte purification method, 763

Fine-needle aspiration biopsy, see under Biopsy(ies), aspiration

Fire(s), flash, carboxyhemoglobin concentrations in victims not elevated, 317

Flame spectrophotometry, see under Spectrophotometry

Flash fires, see under Fire(s)

#### Thyroid

failure, primary, thyroid-stimulating hormone, thyroxine, and triiodothyronine relationship in, 747

profile interpretation, octal algorithm for, 575

triiodothyronine, radioimmunoassay kits (abstract), 99

Thyroid-stimulating hormone, relationship to thyroxine and triiodothyronine in primary thyroid failure, 747

#### Thyroxine

effective thyroxine ratio in primary thyroid failure, 747

thyroid-stimulating hormone and triiodothyronine relationship in primary thyroid failure, 747

Tobramycin, automated antimicrobial susceptibility system evaluation, 769

Tongue, non-squamous tumors (abstract), 99

Total protein, see under Protein(s)

Trace elements in human disease, analysis by proton-induced x-ray emission (abstract), 100

Transbronchial biopsy, see under Biopsy(ies), lung

#### Transfusion(s)

see also Blood banks

erythrocytes, frozen, thawed, in blood banking, 28 months' experience, 250

IgA agammaglobulinemia detection by latex-particle test (abstract), 98

megaloblastic anemia, effects on serum iron, serum lactate dehydrogenase, and platelets in, 458

type and screen as alternative to crossmatch (abstract), 98

#### Transplant(s)

renal

see also Allograft(s)

lymphocyte crossmatching, immunoperoxidase antiglobulin technic in detection of anti-lymphocyte antibodies, 347

#### Transport

automated, of clinical laboratory specimens by slow-speed gravity delivery system, 243

gravity, slow-speed pneumatic, of laboratory specimens, 243

pneumatic tube system, immunologic studies of blood samples transported by, 508

*Trichinella spiralis*, infestation in immunosuppressed human host, 791

Trichinosis in immunosuppressed human host, 791

Triglyceride(s), hyperchylomicronemia effect on hemoglobin measurement, 584

Triiodothyronine, thyroid-stimulating hormone and thyroxine relationship in primary thyroid failure, 747

Trimethoprim-sulfamethoxazole therapy, thymidine-dependent strain of *Salmonella oslo* selected by, 307

Triphenyl tetrazolium chloride, see under Stain(s)

TSH, see Thyroid-stimulating hormone

TTC, see Stain(s), triphenyl tetrazolium chloride

#### Tumor(s)

see also Neoplasia; Neoplasm(s)

angiogliomoid, of bone (abstract), 106

hepatic, oral contraceptive-associated, alpha<sub>1</sub>-antitrypsin protein marker in, 736

human, leukocyte-mediated reactivity to as detected by leukocyte adherence inhibition test (symposium), 706

immunoblastic IgM-producing, nodular lymphoma transformation to, 611

leukocyte-mediated reactivity to as detected by leukocyte adherence inhibition test (symposium), 706

mixed, intranasal (pleomorphic adenomas), clinicopathologic study of 40 cases, 213

nonlymphomatous, splenic (abstract), 105

non-squamous, of tongue (abstract), 99

solid, malignant, nitroblue tetrazolium tests, spontaneous and stimulated, of leukocytes, 570

Type and screen in preventing transfusion of incompatible blood (abstract), 98

## U

Ulcer(s), genital, *Herpesvirus hominis* prevalence in lesions with suggestive chancre morphology (letter), 628

#### Ultrastructure

see also Microscopy, electron

breast (letters), 90; 90

proteinaceous material (letters), 87; 89

sarcoidosis, pseudo-fungal budding structures and asteroid bodies in (abstract), 99

surface, urinary casts, 547

T cell leukemia-lymphoma in young adults, 429

urinary casts, surface, 547

Unconjugated estriol, see under Estriol

Uncryptal adenoma, see under Adenoma(s)

Urethritis, Chlamydia genital infections, diagnosis in laboratory (abstract), 103

Urinalysis, cast ultrastructure, 547

#### Urine

bacterial antigen excretion, latex agglutination in diagnosis of bacterial infections, 284

casts, ultrastructure, surface, 547

chemistry survey program, pilot (CAP survey), 153

estriol, total, radioimmunoassay using commercial reagents evaluated, 474

glucose in, vitamin C and tests for, 592

osmolality, interlaboratory survey (CAP survey), 153

sediment, improved technic for identification (abstract), 107

#### Uterus

actinomycosis in presence of intrauterine device, 622

intrauterine device, actinomycosis, pelvic, in presence of, 622

## V

Vagal body, paraganglionoma, malignant, 400

Vagina, swabs, acid phosphatase quantitation and relationship to time of coitus, 238

Variance, guidelines for clinical chemistry quality control based on long-term experience of 61 hospitals, 463

Vascular antibody, see under Antibody(ies)

Vascular lesion, hemangioma, peribulbar, of breast, 21

#### Vein(s)

saphenous

aortocoronary bypass, aortic dissection complicating, 729

aortocoronary bypass, myocardial alterations associated with, 721

Ventricular mass, see under Heart, ventricle

#### Virus(es)

cultures, monkey kidney cell, for isolation, cynomolgus and rhesus cells compared, 276

influenza, isolation, monkey kidney cell cultures for, cynomolgus and rhesus cells compared, 276

isolation, monkey kidney cell cultures for, cynomolgus and rhesus cells compared, 276  
 parainfluenza, isolation, monkey kidney cell cultures for, cynomolgus and rhesus cells compared, 276  
 Virus-like particle(s), ultrastructure of lymphoid interstitial pneumonia (letters), 799; 800; 800  
 Viscosity, plasma, test (abstract), 99  
 Vitamin C, urinary glucose tests and, 592

## W

Warm antibody, see under Antibody(ies)  
 Washer, disk, paper, for gentamicin and other assay procedures, 598  
 Washing  
   disks  
     gentamicin assay by enzymatic adenylation, 566  
     paper, for gentamicin and other assay procedures, device for, 598  
 Westergren erythrocyte sedimentation rate determination, Guest method compared with, 766  
 White blood cell, see Leukocyte(s)

## X

X-ray emission analysis, proton-induced, of trace elements in human disease (abstract), 100  
 Xylene toxicity (letter), 425

## Z

Zeta sedimentation ratio, rheumatoid arthritis disease activity and, 760  
 ZSR, see Zeta sedimentation ratio

Lippincott Co., East Washington Square, Philadelphia, Pennsylvania 19105. Second class postage paid at Philadelphia and additional mailing offices. Subscription price: U.S. and possessions, \$30 per year; all other countries \$39 per year. Single issue price \$4.00.

# TABLE OF CONTENTS

JULY TO DECEMBER, 1977

## Number 1, July 1977

The Changing Incidence of Association of Hepatitis B with Hepatocellular Carcinoma in California. ROBERT L. PETERS, ANGELOS P. AFROUDAKIS, AND DOROTHY TATTER .....	1
Stem Cell (Immunoblastic) Lymphoma. A Variant of B Lymphocytic Lymphoma. RICHARD J. REED AND H. NINA DHURANDHAR .....	8
Evaluation of the Transbronchial Biopsy of the Lung. ROBERT E. FECHNER, S. DONALD GREENBERG, R. KEITH WILSON, AND PAUL M. STEVENS .....	17
The Perilobular Hemangioma. A Benign Microscopic Vascular Lesion of the Breast. PAUL PETER ROSEN AND REN L. RIDOLFI .....	21
Hemagglutination as an Alternate Technic for the Detection of Melanoma-specific Cytoplasmic Antigens. DIANE VAN ALSTYNE .....	24
Disseminated Candidiasis. Changes in Incidence, Underlying Diseases, and Pathology. RICHARD L. MYEROWITZ, GEORGE J. PAZIN, AND CHRIS M. ALLEN .....	29
Detection of Cryptococcal Polysaccharide Using Counterimmunoelectrophoresis. JAMES E. MACCANI .....	39
Comparison of the Reaction-rate and Clot-density Methods for Determination of Plasma Fibrinogen. LEO R. ZACHARSKI AND ROBERT ROSENSTEIN .....	45
Restoration of Hemoglobin Function in Stored EDTA Blood. Application in Identification of Hemoglobin Variants with Abnormal Oxygen Affinity. ABRAHAM SUMOZA, VIRGIL F. FAIRBANKS, AND ALVARO A. PINEDA .....	53
An Evaluation of a Kinetic Acid Phosphatase Method. LESLIE M. SHAW, WALTER BRUMMUND, AND RAYMOND J. DORIO .....	57
Contribution of Arterial Blood Lactate Measurements to the Care of Critically Ill Patients. C. THOMAS ANDERSON, JR., JAMES O. WESTGARD, KATHY SCHLINGEN, AND MARVIN L. BIRNBAUM .....	63
Case Reports:	
Upper Cervical Myelopathy in Achondroplasia. S. SAMUEL YANG, DAVID P. CORBETT, A. JOSEPH BROUGH, KATHLEEN P. HEIDELBERGER, AND JAY BERNSTEIN .....	68
<i>Corynebacterium equi</i> Infection Complicating Neoplastic Disease. RICHARD BERG, HERMAN CHMEL, JOAN MAYO, AND DONALD ARMSTRONG .....	73
False-negative Test for Fibrinogen-Fibrin Degradation Products. THOMAS KICKLER AND WILLIAM R. BELL .....	78
News and Notices .....	81
Minutes of the Meeting of the Members of the American Society of Clinical Pathologists at the Fall Meeting, Thursday, October 28, 1976 .....	82
Letters to the Editor:	
The Ultrastructure of Proteinaceous Material. GIOVANNINO MASSARELLI, FRANCESCO TANDA, LUISANNA BOSINCU, GIULIO COSTANZI, AND UMBERTO MUSCATELLO .....	87
The Authors' Reply. MARGARITA PALUTKE, ROBERT WEISE, AND PREM KHILANANI .....	89
Ultrastructure of Human Breast. MARTIN HARRIS .....	90
Dr. Fisher's Reply. EDWIN R. FISHER .....	90
Accurate Hemoglobin Determination. SEYMOUR EICHEN, JOHN MANDEL, ROBERT D. SCHWENK, AND DIANA L. WARFIELD .....	91
Diagnostic Use of Bone Marrow Acid and Alkaline Phosphatases. YOHANNES W. YESUS AND HENRY M. TAYLOR .....	92
Health Risks in Preparation of the Esterase Stains. JOSEPH MARTY AND CARL R. KJELDSBERG .....	93
Disseminated Intravascular Coagulation. RODGER L. BICK .....	93
Disseminated Intravascular Coagulation. PAUL G. HATTERSLEY .....	94
Dr. Branson's Reply. HERMAN E. BRANSON .....	95
Subacute Myelo-optico-neuropathy Following Pneumonitis. MARTIN S. WOLFE .....	95
Dr. Chambers' Reply. CHARLES H. CHAMBERS .....	96
Abstracts of Papers. Scientific Sessions of the Spring Program of the American Society of Clinical Pathologists, March 3-10, 1977 .....	97

## Number 1 (S), Supplement to July 1977

## College of American Pathologists Survey

Introduction to the College of American Pathologists Survey Supplement. JOHN G. BATSAKIS AND ROGER K. GILBERT .....	109
Normality and Other Statistical Considerations as They Relate to Selected Quantitative Measures in the CAP Survey. M. ANTHONY SCHORK, JOEL B. GREENHOUSE, AND GEORGE W. WILLIAMS .....	112
Long-term Stability of Enzymes, Total Protein, and Inorganic Analytes in Lyophilized Quality Control Serum. NOEL S. LAWSON, GUY T. HAVEN, AND THOMAS D. MOORE .....	117
Analytical Clinical Chemistry Precision. State of the Art for Fourteen Analytes. JOHN W. ROSS AND MARTIN D. FRASER .....	130
Interlaboratory Survey of Enzymatic Analyses. II. Intermediate Studies. GEORGE F. GRANNIS .....	142
Urinary Chemistry. A New CAP Program. GUY C. GLENN AND THOMAS K. HATHAWAY .....	153
Serum Magnesium. A CAP Survey—1975. ROBERT J. TEEARS, BRUCE A. BARNES, JOHN G. BATSAKIS, AND DANIEL M. BLOCH .....	159
Serum Lithium. A CAP Survey Perspective. BRUCE A. BARNES, ROBERT J. TEEARS, DANIEL M. BLOCH, AND JOHN G. BATSAKIS .....	162
Serum Osmolality. A CAP Survey Analysis. RICHARD JUEL .....	165
Proficiency Testing for the Radioimmunoassay of Carcinoembryonic Antigen. A One-year Report. GUSTAVO REYNOSO, MARGARET KEANE, AND STANLEY KONOPKA .....	170
The CAP Blood Bank Comprehensive Survey Program—1975. BYRON A. MYHRE, JOHN A. KOEPKE, HERBERT F. POLESKY, RICHARD WALKER AND PETER VAN SCHOONHOVEN .....	175
The Calibration of Automated Instruments for Accuracy in Hemoglobinometry. JOHN A. KOEPKE .....	180
Calibration Methods for Automated Hematology Instruments. P. R. GILMER, JR., LARRY J. WILLIAMS, JOHN A. KOEPKE, AND BRIAN S. BULL .....	185
The Prediction of Prothrombin Time System Performance Using Secondary Standards. JOHN A. KOEPKE, P. R. GILMER, JR., DOUGLAS A. TRIPLETT, AND MICHAEL B. O'SULLIVAN .....	191
A Critical Analysis of Platelet Counting Methods. RICHARD K. WERTZ AND JOHN A. KOEPKE .....	195
A Delineation of Performance Criteria for the Differentiation of Leukocytes. JOHN A. KOEPKE .....	202
CAP Interlaboratory Survey of Analytic Balances. MYRTON F. BEELER AND DONALD A. BOUDREAU .....	207
Results of HB <sub>1</sub> Ag Testing on AABB-CAP Survey Samples. HERBERT F. POLESKY AND MARGARET R. HANSON .....	210

## Number 2, August 1977

Intranasal Mixed Tumors (Pleomorphic Adenomas). A Clinicopathologic Study of 40 Cases. JOHN COMPAGNO AND RAYMOND T. WONG .....	213
Elevation of Granulomatous Lymph-node and Serum Lysozyme in Sarcoidosis and Correlation with Angiotensin-converting Enzyme. EMANUEL SILVERSTEIN, JOAN FRIEDLAND, AND TEDD ACKERMAN .....	219
Sensitive Fluorimetric Assay for Serum Angiotensin-converting Enzyme with the Natural Substrate Angiotensin I. JOAN FRIEDLAND AND EMANUEL SILVERSTEIN .....	225
An Isozyme of Erythrocyte Pyruvate Kinase (PK-Los Angeles) with Impaired Kinetics Corrected by Fructose-1,6-Diphosphate. DONALD E. PAGLIA, WILLIAM N. VALENTINE, KENNETH O. WILLIAMS, AND PATRICIA N. KONRAD .....	229
Amniotic Fluid Analysis in Assessment of Fetal Maturity. SHAHLA MASOOD .....	235
Quantitation of Vaginal Acid Phosphatase and Its Relationship to Time of Coitus. THEODORE P. FINDLEY .....	238
A Slow-speed Gravity Delivery System for Laboratory Specimens. BERTON M. LAPIDUS AND ROBERT C. MACINDOE, JR. ....	243
The Use of Frozen, Thawed Erythrocytes in Blood Banking. A Report of 28 Months' Experience in a Large Transfusion Service. MASSUMEH TELISCHI, RONALD HOIBERG, KODURI R. P. RAO, AND ASHOK R. PATEL .....	250
Antithrombin III and Factor VIII in Patients with Neoplasms. RAY LOSITO, PAUL BEAUDRY, JAMIE CARO VALDERRAMA, LÉO COUSINEAU, AND BERNARD LONGPRÉ .....	258
Neutrophilic Hypersegmentation as an Indicator of Incipient Folic Acid Deficiency. TERENCE BILLS AND LAWRENCE SPATZ .....	263
Reassessment of a Cytochemical Test for Differential Diagnosis of Leukemic Reticuloendotheliosis. ISAO KATAYAMA AND JAMES P. S. YANG .....	268

# TABLE OF CONTENTS

A.J.C.P. • December 1977

Nonspecific Esterase Activity in Pernicious Anemia and Chronic Erythremic Myelosis. A Cytochemical and Electrophoretic Study. LAWRENCE KASS AND CHERYL L. PETERS .....	273
Comparison of Primary Rhesus and Cynomolgus Monkey Kidney Cell Cultures for Viral Isolation from Clinical Specimens. GARY E. HOLLICK, LOUISE REICHRATH, AND THOMAS F. SMITH .....	276
A Method for Determining <i>In-vitro</i> Drug Susceptibilities of Some Nocardiae and Actinomadurae. Results with 17 Antimicrobial Agents. GARY F. CARROLL, JUNE M. BROWN, AND LEANOR D. HALEY .....	279
Latex Agglutination in Diagnosis of Bacterial Infections, with Special Reference to Patients with Meningitis and Septicemia. JAKOV KALDOR, RICHARD ASZNOWICZ, AND DAVID G. P. BUIST .....	284
Isolation of <i>Corynebacterium xerosis</i> from Clinical Specimens. Infection and Colonization. RICHARD K. PORSCHEN, ZELMA GOODMAN, AND BETSY RAFAI .....	290
Germ Tube-positive <i>Candida tropicalis</i> . PHILIP M. TIerno, JR., AND MAYER MILSTOC .....	294
Case Reports:	
A Civilian Case of Fatal Meningococcemia Due to <i>Neisseria meningitidis</i> , Group Y. PETER G. BERNAD, DAVID A. SNYDER, AND MICHAEL LEVEY .....	296
Pulmonary Allescheriasis. Report of a Case from Ontario, Canada. ALEX BAKERSPIGEL, TOM WOOD, AND STEPHEN BURKE .....	299
<i>Pseudomonas maltophilia</i> Bacteremia Associated with a Prolapsed Mitral Valve. SRINIVASAN L. NARASIMHAN, DARRYL L. GOPAUL, AND LESLIE A. HATCH .....	304
Thymidine-dependent Strain of <i>Salmonella oslo</i> Selected by Trimethoprim-Sulfamethoxazole Therapy. LAURENCE R. MCCARTHY, HERMAN CHMEL, GERALDINE BELL, AND DONALD ARMSTRONG .....	307
Editorial:	
Pathology Reference Centers. EDWARD A. GALL .....	312
News and Notices .....	314
Letters to the Editor:	
Lymphoid Follicles in Bone Marrow Aspirates. JOSEPH A. LINSK AND MAGED S. KHOORY .....	315
The Authors' Reply. KOICHI MAEDA AND JOHN W. REBUCK .....	315
Thalassemia Minor Versus Iron Deficiency in Children. HENRY B. SOLOWAY .....	316
Dr. Klee's Reply. GEORGE G. KLEE .....	316

## Number 3, September 1977

Carboxyhemoglobin Concentrations in Flash Fire Victims. Report of Six Simultaneous Fire Fatalities without Elevated Carboxyhemoglobin. CHARLES S. HIRSCH, ROBERT O. BOST, SAMUEL R. GERBER, MARY E. COWAN, LESTER ADELSON, AND IRVING SUNSHINE .....	317
A Mathematical Model of a Blood-gas Service. ARTHUR F. KRIEG, MICHAEL ISRAEL, JOHN J. DINKEL, AND GARY A. KOCHENBERGER .....	321
Improved Quality Control of Blood Acid-Base Equilibrium Using the Daily Mean of Patients' Results. A Validation Study. RAOUL LECLERCQ AND PHILIPPE MASCART .....	327
A Rapid Screening Method for Blood Glucose Estimation. WILLIAM L. GYURE .....	336
Some Additional Bioethical Questions Related to Hepatitis B Antigen. LAURENCE B. MCCULLOUGH .....	340
Application of Counterimmunoelectrophoresis in Rapid Detection of Cytomegalovirus Antibodies. RUTH A. NIEBOJEWSKI, FRANCISCO G. AGUILAR-TORRES, AND MICHAEL W. RYTEL .....	343
Detection of Anti-lymphocyte Antibodies Using the Immunoperoxidase Antiglobulin Technic. BRUCE R. MACPHERSON AND MARY ELLEN KOTTMAYER .....	347
Evaluation of the Capillary Beta-lactamase Test and Antimicrobial Susceptibility of <i>Haemophilus influenzae</i> . CHATRCHAI WATANAKUNAKORN AND CHERYL GLOTZBECKER .....	351
The Effects of "Anti-platelet" Drugs on Bleeding Time and Platelet Aggregation in Normal Human Subjects. GEORGE R. BUCHANAN, VERA MARTIN, PETER H. LEVINE, KRISTINE SCOON, AND ROBERT I. HANDIN .....	355
Evaluation of a Single-channel Photo-optical Clot-timing Instrument. IRWIN M. WEISBROT AND DEBORAH K. WALDNER .....	360
Use of the Bone Marrow Imprint in the Diagnosis of Leukemic Reticuloendotheliosis ("Hairy Cell Leukemia"). JOHN R. KRAUSE, CARL SRODES, AND ROBERT E. LEE .....	368
Isoantigens A, B, and H in Morphologically Normal Mucosa and in Carcinoma of the Larynx. FRITZ LIN, PAUL I. LIU, AND DOUGLAS H. MCGREGOR .....	372
Orbital Lymphomas and Pseudolymphomas. A Clinicopathologic Study of Eleven Cases. ARTHUR G. KELLY, ARTURO ROSAS-URIBE, AND STEPHEN T. KRAUS .....	377

A Simple Planimetric Method for Determination of Left Ventricular Mass and Necrotic Myocardial Mass in Postmortem Hearts. PAUL J. BOOR AND EDWARD S. REYNOLDS .....	387
Coronary Embolism and Myocardial Infarction Associated with Nonbacterial Thrombotic Endocarditis. A. OLUSEGUN FAYEMI AND LUDWIG M. DEPPISCH .....	393
Case Reports:	
Multiple Apocrine Fibroadenomas of the Anal Skin. DIETER ASSOR AND JOSEPH B. DAVIS .....	397
Malignant Vagal Paraganglioma. Report of a Case and Review of Literature. AYTEN SOMEREN AND ZEYNEL KARCIOGLU .....	400
Atypical Fibrous Histiocytoma of the Humerus. A Light and Electron Microscopic Study. REISUKE SAITO AND MYRVEN J. CAINES .....	409
Misdiagnosed Salmonella Septicemia and Endarteritis Due to a Lactose-fermenting Strain. Bacteriologic and Epidemiologic Considerations. RICHARD K. PORSCHEN, DEVON HALE, AND ZELMA GOODMAN .....	416
Thromboembolism in Hageman Trait. RICHARD A. MCPHERSON .....	420
News and Notices .....	424
Letters to the Editor:	
Xylene Hazard in Perspective. WILLIAM E. CLARK, II. ....	425
A Comparison of Biochemical Report Forms. PAUL POTTGEN AND E. R. DAVIS .....	426
Rapid Grocott's Methenamine-Silver Nitrate Method for Fungi and <i>Pneumocystis carinii</i> . CHARLES J. CHURUKIAN AND ERIC A. SCHENK .....	427

## Number 4, October 1977

T Cell Leukemia-Lymphoma in Young Adults. MARGARITA PALUTKE, DAVID J. PATT, ROBERT WEISE, CHANDRA VARADACHARI, ROBERT F. WYLIN, CARTER R. BISHOP, AND PAMELA M. TABACZKA .....	429
Diagnosis of Acute Leukemia. Variability of Morphologic Criteria. HENRY K. TAN AND JOHN D. LAMBERG .....	440
Profiles of Platelet Volume Distributions in Normal Individuals and in Patients with Acute Leukemia. PAMELA R. ROPER, DENNIS JOHNSTON, JACQUE AUSTIN, SHANTI S. AGARWAL, AND BENJAMIN DREWINKO .....	449
Effects of Transfusion on Serum Iron, Serum Lactate Dehydrogenase, and Platelets in Megaloblastic Anemia. GEORGES FILLET, JEAN-MARIE ANDRIEN, AND JEAN BURY .....	458
Guidelines for Clinical Chemistry Quality Control Based on the Long-term Experience of Sixty-one University and Tertiary Care Referral Hospitals. A Reappraisal. SANFORD R. KURTZ, BRADLEY E. COPELAND, AND JON V. STRAUMFJORD, JR. ....	463
Evaluation of a Radioimmunoassay for Serum Unconjugated Estriol Using Commercial Reagents. JUDITH THOMPSON AND GUY HAVEN .....	474
Effect of Sodium Ascorbate Concentration on the Stability of Samples for Determination of Serum Folate Levels. JULES KERKAY, CATHERINE M. COBURN, AND DONALD McEVOY .....	481
Scanning Electron Microscopy of <i>Acanthamoeba culbertsoni</i> as Observed in the Subarachnoid Space. T. G. SARPHIE AND D. J. ALLEN .....	485
Effects of Cigarette Smoking on Intramyocardial Arteries and Arterioles in Man. RICHARD L. NAEYE AND LUAN DINH TRUONG .....	493
Correlation of Cutaneous Hypersensitivity with Lymphocytic Response to <i>Candida albicans</i> . ALEXANDER C. FERGUSON, HARVEY E. KERSHNER, WILLIAM K. COLLIN, AND E. RICHARD STIEHM .....	499
Recommendation for Measurement of Erythrocyte Sedimentation Rate of Human Blood. INTERNATIONAL COMMITTEE FOR STANDARDIZATION IN HAEMATOLOGY .....	505
Laboratory Suggestions:	
Immunologic Studies of Blood Samples Transported by a Pneumatic Tube System. ROBERT M. GREENDYKE, JANE C. BANZHAF, SOPHIA PELYSKO, AND BEVERLY BAUMAN .....	508
Lymph Node Identification. Specimen Radiography of Tissue Predominated by Fat. JOHAN ANDERSEN AND JØRN JENSEN .....	511
A Simple Method for Preparing Ferruginous Bodies for Electron Microscopic Examination. ANDREW CHURG, NAOMI SAKODA AND MARTHA L. WARNOCK .....	513
Case Reports:	
Immunoblastic Lymphadenopathy. A Mixed Proliferation of T and B Lymphocytes. RICHARD A. RUDDERS AND RONALD DELELLIS .....	518
Extraovarian Endometrioid Carcinoma. Review of the Literature and Report of Two Cases with Unusual Features. MICHAEL P. HYMAN .....	522

## TABLE OF CONTENTS

A.J.C.P. • December 1977

News and Notices .....	528
Letters to the Editor:	
Immunoperoxidase Staining of <i>E. histolytica</i> and Soil Amebas in Formalin-fixed Tissue. CLYDE G. CULBERTSON AND KATHLEEN HARPER .....	529
Spurious Platelet Counts in Hairy Cell Leukemia. SANFORD A. STASS, MARVIN L. HOLLOWAY, R. BRADLEY SLEASE, AND HAROLD R. SCHUMACHER .....	530
Hand-mirror Cell Leukemia. A New Clinical and Morphological Variant. H. R. SCHUMACHER, E. PERLIN, J. R. KLOS, M. L. HOLLOWAY, W. M. MILLER AND S. A. STASS .....	531

## Number 5, November 1977

Alkaline Phosphatase-positive Malignant Lymphoma. A Subtype of B-cell Lymphomas. KOJI NANBA, ELAINE S. JAFFE, RAUL C. BRAYLAN, EDWARD J. SOBAN, AND COSTAN W. BERARD .....	535
Lymphocyte Surface Markers in Acute Lymphoblastic Leukemia of Adults. JUAN C. GARCIA, YI-HSIANG CHEN, AND CLEMENT C. S. HSU .....	543
The Surface Ultrastructure of Urinary Casts. MERYL H. HABER AND LUTHER E. LINDNER .....	547
Acute Pulmonary Complications in Systemic Lupus Erythematosus. Immunofluorescence and Light Microscopic Study. LOUIS P. PERTSCHUK, LOUIS F. MOCCIA, YALE ROSEN, HAROLD LYONS, CATHERINE M. MARINO, ALLEN A. RASHFORD, AND CHRISTINE M. WOLLSCHLAGER .....	553
Lipid in Invasive Cancer of the Breast. EDWIN R. FISHER, REMIGIO GREGORIO, W. S. KIM, AND CAROL REDMOND .	558
Fecal Leukocytes in Enteric Infections. LARRY K. PICKERING, HERBERT L. DUPONT, JORGE OLARTE, RICHARD CONKLIN, AND CHARLES ERICSSON .....	562
Rapid Serum Gentamicin Assay by Enzymatic Adenylation. R. H. BUTCHER .....	566
Spontaneous and Stimulated Nitroblue Tetrazolium Tests of Leukocytes from Patients with Solid Malignant Tumors. NISSIM HAIM, NORA OBEDEANU, TOVA MESHULAM, ELIEZER ROBINSON, AND DAVID MERZBACH .....	570
An Octal Algorithm for Pattern Coding and Computer-assisted Interpretative Reporting. WILLIAM R. DITO .....	575
Effect of Hyperchylomicronemia on the Measurement of Hemoglobin. CLAUDE GAGNÉ, PIERRE L. AUGER, SITAL MOORJANI, DANIEL BRUN, AND PAUL-J. LUPIEN .....	584
Enzymatic Activity Patterns in Probability Population Samples. Serum Lactate Dehydrogenase. LOUIS MUNAN, ANTHEA KELLY, AND CLAUDE PETITCLERC .....	587
Urinary Glucose and Vitamin C. RICHARD BRANDT, KENNETH E. GUYER, AND WILLIAM L. BANKS, JR. ....	592
Duties and Responsibilities of the Pathologist in the Practice of Medicine. WILLIAM H. HARTMANN AND WILLIAM A. GARDNER, JR. ....	595
Laboratory Suggestion:	
A Device for Efficient Washing of Paper Disks for Gentamicin or Other Assay Procedures. R. H. BUTCHER .....	598
Case Reports:	
"Lennert's Lymphoma" with Transformation to Malignant Lymphoma, Histiocytic Type (Immunoblastic Sarcoma). MICHAEL A. KLEIN, RONALD JAFFE, AND RICHARD S. NEIMAN .....	601
Evolution of Reactive Lymphadenopathy into Lymphoma over a Nine-year Period. A Clinicopathologic Study. CARYL H. HYLAND, TARIQ M. MURAD, AND WILLIAM E. DISMUKES .....	606
Transformation of Nodular Lymphoma to an Immunoblastic IgM-producing Tumor. FRED R. DICK, WILLIAM PARKS, AND MICHAEL O'CONNOR .....	611
Preleukemic Granulocytic Sarcomas of the Gastrointestinal Tract. Report of Two Cases. EDUARDO A. BRUGO, RICHARD B. MARSHALL, ALBERTO M. RIBERI, AND OSCAR E. PAUTASSO .....	616
Unilateral Tubo-ovarian Actinomycosis in the Presence of an Intrauterine Device. JOHN F. MCCORMICK AND ROBERT D. F. SCORGIE .....	622
News and Notices .....	627
Letters to the Editor:	
The Prevalence of <i>Herpesvirus hominis</i> in Genital Lesions with Suggestive Chancre Morphology. NEHAMA SHARON .....	628
Hepatic Changes Induced by Lysine Acetylsalicylate. J. O. SOARES, A. P. ÁGUAS, AND J. F. MOURA-NUNES .....	629
The Authors' Reply. THEODORE C. IANCU AND EZRA ELIAN .....	630
Utilization of Blood and Its Financial Implications in Elective Surgical Procedures. PAUL POTTGEN, MARY GOURLEY, AND E. R. DAVIS .....	630

A Unicryptal Colonic Adenoma, the Smallest Colonic Neoplasm Yet Observed in a Non-polyposis Individual. BRUCE A. WODA, KENNETH FORDE, AND NATHAN LANE .....	631
---	-----

## Number 5 (S), Supplement to November, 1977

**Laboratory Diagnosis of Immune and Autoimmune Reactions: Basic Principles and Practical Applications  
Eleventh Annual ASCP Basic Science Research Symposium**

Introduction. WILLIAM O. RUSSELL .....	633
Laboratory Diagnosis of Immune and Autoimmune Reactions. Basic Principles and Practical Application—Introductory Review. JAMES M. BOWEN AND LEON DMOCHOWSKI .....	635
Autoimmune Hemolytic Anemias. Warm and Cold Antibody Types. HARRY RUBIN .....	638
Biological Significance of IgM and IgG Antibodies to DNA and RNA in Autoimmune Disease. NORMAN TALAL, JIRAYR R. ROUBINIAN, RAO J. PILLARISSETTY, AND SHIGEMASA SAWADA .....	643
Complement Testing in the Diagnosis of Immune and Autoimmune Diseases. PETER H. SCHUR .....	647
Radioimmunoprecipitation Assays in Diagnosis of Immune and Autoimmune Reactions. ROBERT G. BLAKER .....	660
Immunofluorescence Tests in Immune Technics and Applications. EUGENE V. BARNETT .....	662
Immunologic Quantitation of Serum Immunoglobulins. BRUCE C. GILLILAND .....	664
T- and B-cells in Immunologic Diseases. SAMUEL STROBER .....	671
Oncofetal Antigens. Increasing the Specificity of the CEA Radioimmunoassay. JOSEPH SHUSTER, SAMUEL O. FREEDMAN, AND PHILIP GOLD .....	679
Immunologic Tests in Diagnosis of Cancer. RONALD B. HERBERMAN .....	688
Serologic Studies of the Diagnosis and Nosology of Human Leukemia. RICHARD S. METZGAR AND T. MOHANAKUMAR .....	699
Leukocyte-mediated Reactivity to Human Tumors as Detected by the Leukocyte Adherence Inhibition Test. I. Demonstration of Tumor Type-specific Reactions. INGEGERD HELLSTRÖM, KARL-ERIK HELLSTRÖM, GERALD VAN BELLE, AND GLEN A. WARNER .....	706

## Number 6, December, 1977

Computer-assisted Pathology Encoding and Reporting System (CAPER). An On-line Computer System Developed at the Massachusetts General Hospital. RAYMOND D. ALLER, STANLEY J. ROBBY, JAMES W. POITRAS, BARRY S. ALTSHULER, MARION CAMERON, MEREDITH C. PRIOR, SUSAN MIAO, AND G. OCTO BARNETT .....	715
Myocardial Alterations Associated with Aortocoronary Saphenous Vein Bypass. MORTON J. ROBINSON, RONALD LAM, AND AZORIDES R. MORALES .....	721
Aortic Dissection Complicating Aortocoronary Saphenous Vein Bypass. RONALD LAM, MORTON J. ROBINSON, AND AZORIDES R. MORALES .....	729
Alpha <sub>1</sub> -antitrypsin, Protein Marker in Oral Contraceptive-associated Hepatic Tumors. PHILIP E. PALMER, WILLIAM M. CHRISTOPHERSON, AND HUBERT J. WOLFE .....	736
Identification of Semen in 500 Patients seen Because of Rape. MIRIAM B. DAHLKE, CYNTHIA COOKE, MARY CUNNANE, JAGJEET CHAWLA, AND PETER LAU .....	740
The Relationship of Thyroid-stimulating Hormone (TSH), Thyroxine (T <sub>4</sub> ), and Triiodothyronine (T <sub>3</sub> ) in Primary Thyroid Failure. MANJULA S. KUMAR, ALI M. SAFA, SHARAD D. DEODHAR, AND O. PETER SCHUMACHER .....	747
Pure Acute Monocytic Leukemia. A Study of 12 Cases. CLAUDE SULTAN, MICHELE IMBERT, MARIE-FRANCOISE RICARD, GERARD SEBAOUN, MICHEL MARQUET, BERNARD BRUN, AND LUCETTE FORGUES .....	752
Platelet Satellitism as a Cause of Abnormal Hemalog D Differential Results. JAMES H. LARSON AND ROBERT V. PIERRE .....	758
The Zeta Sedimentation Ratio (ZSR) and Activity of Disease of Rheumatoid Arthritis. MICHAEL W. MORRIS, ROBERT S. PINALS, AND DOUGLAS A. NELSON .....	760
An Improved Method for Purification of Lymphocytes. UGO CARPENTIERI, LARRY THORPE, AND LOUIS A. SORDAHL .....	763
An Evaluation of the Guest Method for Determining Erythrocyte Sedimentation Rate. DANIEL C. NIEJADLIK AND CHARLES ENGELHARDT .....	766
Laboratory Evaluation of an Automated Antimicrobial Susceptibility System. K. GAYLE STUBBS AND KONRAD WICHER .....	769

## TABLE OF CONTENTS

A.J.C.P. • December 1977

## Case Reports:

Hairy Cell Leukemia. A Case with B-lymphocyte Origin. WILLIAM I. SMITH, JR., BERNARD L. ZIDAR, ALAN WINKELSTEIN, THERESA L. WHITESIDE, RICHARD K. SHADDUCK, ZELLA ZEIGLER, VOLKER BRIETFELD, JAY H. SILVERBERG, LOREN M. ROSENBAUGH, AND BRUCE S. RABIN .....	778
Massive Thymic Enlargement. Report of a Case of Gross Thymic Hyperplasia in a Child. SHEILA MORIBER KATZ, JANE CHATTEN, HARRY C. BISHOP, AND HERMAN ROSENBLUM .....	786
Trichinosis in an Immunosuppressed Human Host. ERIC S. JACOBSON AND HANNE G. JACOBSON .....	791
Intraleukocytic Spore Formation and Leukocytic Vacuolization during <i>Clostridium perfringens</i> Septicemia. TIMOTHY T. KUBERSKI .....	794
News and Notices .....	797

## Letters to the Editor:

Isolates of Group F Streptococcus. HARRY R. INGHAM AND PENELOPE R. SISSON .....	798
The Authors' Reply. ROBERT M. BANNATYNE AND CLARE RANDALL .....	798
Antibiotic Susceptibility of <i>K. ozaenae</i> . HERBERT BRAUNSTEIN .....	799
The Authors' Reply. STEPHEN A. BERGER, ALAN A. POLLOCK, AND ALMA SUE RICHMOND .....	799
Ultrastructure of Lymphoid Interstitial Pneumonia. EDUARDO YUNIS .....	799
Ultrastructure of Lymphoid Interstitial Pneumonia. JENO E. SZAKACS .....	800
The Authors' Reply. SEPPÖ SUTINEN, SIRKKA SUTINEN, AND ESKO HUHTI .....	800
Index to Volume 68 .....	801
